Notes to Condensed Consolidated Financial Statements

Note 1: Summary of Significant Accounting Policies

Description of Business. A. H. Belo Corporation and subsidiaries (“A. H. Belo” or the “Company”), headquartered in Dallas, Texas, is a leading local news and information publishing company with commercial printing, distribution and direct mail capabilities, as well as expertise in emerging media and marketing services. With a continued focus on extending the Company’s media platform, A. H. Belo is able to deliver news and information in innovative ways to a broad spectrum of audiences with diverse interests and lifestyles.

The Company publishes *The Dallas Morning News* (www.dallasnews.com), Texas’ leading newspaper and winner of nine Pulitzer Prizes; the *Denton Record-Chronicle* (www.dentonrc.com), a daily newspaper operating in Denton, Texas, and various niche publications targeting specific audiences. A. H. Belo also offers digital and other business marketing solutions as well as event marketing.

Basis of Presentation. These consolidated financial statements include the accounts of A. H. Belo and its subsidiaries. The Company follows the guidance set by the Financial Accounting Standards Board (“FASB”) or other authoritative accounting standards-setting bodies. Under Accounting Standards Codification (“ASC”) 810 – *Consolidation*, the Company determines whether subsidiaries, joint ventures, partnerships and other arrangements should be consolidated. Transactions between the consolidated companies are eliminated and noncontrolling interests in less than wholly-owned subsidiaries are reflected in the consolidated financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. In the opinion of management, all adjustments considered necessary for a fair presentation are included. All dollar amounts are presented in thousands, except per share amounts, unless the context requires otherwise.

Presentation of current and prior period amounts in the consolidated financial statements and notes thereto reflect continuing operations of the Company, unless otherwise noted. Amounts presented for 2014 are exclusive of results related to discontinued operations as well as prior year results of businesses subsequently acquired in 2015.

New Accounting Pronouncements. The FASB issued the following Accounting Standards Updates (“ASU”) which could have potential impact to the Company’s financial statements:

ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This guidance generally clarifies the principles for recognizing revenue and develops a common revenue standard for GAAP and International Financial Reporting Standards. The standard outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes the most current revenue recognition guidance. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The update is effective for fiscal years and interim periods beginning after December 15, 2016, and interim periods in those years. In the second quarter of 2015, the FASB deferred the effective date of the standard by one year to December 15, 2017. The Company is currently evaluating the impact this update will have on its recognition and presentation of revenues within the consolidated statements of operations.

ASU 2014-15, *Presentation of Financial Statements - Going Concern (Subtopic 205-40)*. This standard provides guidance around management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern and to provide related disclosures. The new standard is effective for fiscal years and interim periods beginning after December 15, 2016. Early adoption is permitted. The Company does not anticipate the adoption of this standard to have a material impact on the presentation of the consolidated financial statements or disclosures.

ASU 2015-02, *Consolidation (Topic 810)*. This update modifies requirements for consolidating certain legal entities. The standard removes the previous presumption that a general partner controls a limited partnership, revises when fees paid to a decision maker or service provider are a variable interest, and places additional emphasis on risk of loss in determining a controlling financial interest. The standard is effective for fiscal years and interim periods beginning after December 15, 2015, with early adoption permitted. The Company is currently evaluating the impact this update will have on its consolidation of legal entities within the consolidated financial statements.

[Table of Contents](#)

ASU 2015-04, *Practical Expedient for the Measurement Date of an Employer's Defined Benefit Obligation and Plan Assets (ASC 715)* This update provides clarification on the accounting for contributions to a defined benefit plan and significant events requiring remeasurement, such as settlements or curtailments, that occur during the period between a month-end measurement date and the employers' fiscal year-end. The standard is effective for fiscal years and interim periods beginning after December 15, 2015. The Company is currently evaluating the impact this update will have on the consolidated financial statements and related disclosures.

ASU 2015-05, *Goodwill and Other - Internal-Use Software (Subtopic 350-40)*. This update clarifies requirements for a customer's accounting for fees paid in a cloud computing arrangement. The standard stipulates that if a cloud computing arrangement includes a software license, then the customer should account for the software license element of the arrangement consistent with the acquisition of other software licenses. If a cloud computing arrangement does not include a software license, the customer should account for the arrangement as a service contract. The standard is effective for fiscal years and interim periods beginning after December 15, 2015, with early adoption permitted. The Company must elect to adopt either retrospectively or prospectively. The Company is currently evaluating the impact this update will have on the consolidated financial statements and related disclosures.

Note 2: Acquisitions

On January 2, 2015, the Company acquired an 80 percent voting interest in DMV Digital Holdings Company, Inc. ("DMV") which holds all outstanding ownership interests of three Dallas-based businesses, Distribion, Inc., Vertical Nerve, Inc. and CDFX, LLC (d/b/a MarketingFX). These businesses specialize in marketing automation, search engine marketing, direct mail and promotional products, respectively. This acquisition complements and expands the product and service offerings currently available to A. H. Belo clients, thereby strengthening the Company's diversified product portfolio and allowing for greater penetration in a competitive advertising market.

The Company's interest in DMV was acquired for a cash purchase price of \$14,111, net of \$152 cash acquired. Transaction costs related to the purchase are a component of other production, distribution and operating costs and totaled \$1,288, of which \$725 were incurred in 2015. The estimated fair value of the acquired businesses totaled \$17,478, of which \$3,368 was attributed to noncontrolling interests. Approximately \$693 of goodwill acquired is expected to be deductible for tax purposes. As further discussed in Note 11 – Contingencies, the contribution agreement included provisions for two pro-rata dividends and an embedded put arrangement with certain noncontrolling shareholders of DMV. The Company is in the process of finalizing the business valuation and its allocation to underlying assets and liabilities. The preliminary allocation of the purchase price, which is subject to adjustment upon finalization, is summarized as follows:

	<i>Estimated Fair Value</i>
Working capital, net of acquired cash	\$ (79)
Property, plant and equipment	57
Other intangible assets	11,990
Goodwill	9,503
Deferred income tax liabilities	(3,993)
	<u>\$ 17,478</u>

Operating results of the businesses acquired have been included in the Condensed Consolidated Statements of Operations from the acquisition date forward. Revenue from marketing services is recognized at the time services are delivered. For arrangements that include multiple deliverables, revenue and upfront fees are allocated to each unit of accounting based on their relative fair values. For the three and nine months ended September 30, 2015, operating results included \$2,370 and \$6,124 of net operating revenue and a pretax loss of \$65 and \$308 before adjusting for noncontrolling interests, respectively. Pro forma results of the Company, assuming the acquisition had occurred at the beginning of each period presented, would not be materially different from the results reported.

Note 3: Discontinued Operations and Sales of Assets

Discontinued Operations. On September 3, 2014, The Providence Journal Company, a wholly-owned subsidiary of the Company, completed a transaction for the (i) sale of substantially all of the assets comprising the newspaper operations of *The Providence Journal* and related real property located in Providence, Rhode Island, and (ii) assumption of certain liabilities by LMG Rhode Island Holdings, Inc. ("LMG"), a subsidiary of New Media Investment Group Inc. The purchase price and working capital adjustment was \$48,654 and the Company recorded a pretax gain on the sale of \$17,134 during the three and nine months ended September 30, 2014.

[Table of Contents](#)

Upon completion of this divestiture, the Company no longer owns the newspaper operations in Providence, Rhode Island. The Company continues to hold and market for sale certain land in Providence, Rhode Island. The Company also retains the obligation for the A. H. Belo Pension Plan II, which provides benefits to employees of The Providence Journal Company.

As a result of the above transaction, the activity and balance of *The Providence Journal* is presented as discontinued operations. During the three and nine months ended September 30, 2014, income from discontinued operations included revenues of \$15,079 and \$58,591, respectively, and expenses of \$14,436 and \$54,825, respectively, related to *The Providence Journal*. The Company adjusted the gain on the sale of *The Providence Journal* in the three and nine months ended September 30, 2015, by \$(52) and \$(62), respectively.

Other Dispositions. On June 19, 2015, the Company completed the sale of the land and building which served as the administrative headquarters of *The Providence Journal*. Note 5: Investments and Other Assets

Investments. Investment interests in various entities which are recorded under the equity method or cost method of accounting, or consolidated if the Company holds a controlling financial interest. Under the equity method, the Company records its share of the investee's earnings or losses each period as a component of other income, net, in the consolidated statements of operations. Under the cost method, the Company records earnings or losses when such amounts are realized. The Company evaluates the recoverability of its investments each period and estimates the fair value of its investments if identified events or circumstances indicate a significant adverse effect on the carrying value. Net gains on equity method investments were \$564 and \$953 for the three months ended September 30, 2015 and 2014, respectively, and \$288 and \$17,206 for the nine months ended September 30, 2015 and 2014, respectively. The table below sets forth the Company's investments.

	<u>September 30,</u> <u>2015</u>	<u>December 31,</u> <u>2014</u>
Equity method investments	\$ 306	\$ 1,640
Cost method investments	1,432	932
Total investments	<u>\$ 1,738</u>	<u>\$ 2,572</u>

Equity method investments - Investments recorded under the equity method of accounting include the following:

- Wanderful Media, LLC ("Wanderful") - The Company owns a 13.0 percent interest in Wanderful, which operates *FindnSave.com*, a digital shopping platform where consumers can find national and local retail goods and services for sale. This platform combines local media participation with advanced search and database technology to allow consumers to view local advertised offers and online sales circulars or search for an item and receive a list of local advertisers and the price and terms offered for the searched item. It also utilizes location-based technology and incentives to drive consumers to retailer locations.

During the nine months ended September 30, 2014, the Company determined that an other-than-temporary decline occurred in the value of its investment in Wanderful Media after evaluating the estimated fair value of the investee as determined by an independent valuation specialist, which resulted in an impairment charge of \$934. The Company attributes the impairment primarily to a decline in business related to Wanderful Media's legacy products. An additional contribution of \$1,909 was made during the nine months ended September 30, 2014, to provide capital for development of new product offerings as Wanderful Media established its market presence.

- Classified Ventures, LLC ("Classified Ventures") - The Company owned a 3.3 percent interest in Classified Ventures through its sale date in the fourth quarter of 2014. The principal businesses of Classified Ventures included the operations of *cars.com* and *apartments.com*. During the nine months ended September 30, 2014, Classified Ventures sold the operations related to *apartments.com* and the Company recorded a gain of \$18,479 related to the transaction. On October 1, 2014, the Company completed a transaction with Gannett Co. Inc. and other unit holders of Classified Ventures whereby Gannett acquired all membership interests from the unit holders of Classified Ventures, resulting in a gain on the sale of \$77,092 during the fourth quarter of 2014. At December 31, 2014, the Company recorded a receivable of \$3,280 for escrow funds held by Classified Ventures related to the sale of its membership interests, which were collected in October 2015. Additional proceeds totaling \$1,046,300 were collected during the nine months ended September 30, 2015, which represented additional distributions related to Classified Ventures sale of *apartments.com* and increased the gain on this transaction.

Other income of \$3,540 was recorded during the three and nine months ended September 30, 2014, for the receipt of an economic parity payment from the former parent company in conjunction with the dissolution of the jointly-owned partnership holding the Company's investment in Classified Ventures.

Consolidated investments - The Company consolidates the following investments in which it has a controlling financial interest:

- Your Speakeasy, LLC ("Speakeasy") - 70.0 percent ownership - targets middle-market business customers and provides turnkey social media account management and content development services.
- Untapped Festivals, LLC ("Untapped") - 51.0 percent ownership - hosts events providing craft beer and entertainment events across major Texas cities.
- DMV Digital Holdings Company, Inc. - 80.0 percent ownership - specializes in marketing automation, search engine marketing, direct mail and promotional products.

Other Assets. As of September 30, 2015, the Company held \$675 in convertible notes receivable issued by a digital audio news and information entity between 2013 and 2015. Based on the weak financial performance and liquidity of the issuer, the notes have been fully reserved and a loss of \$675 was recorded to other loss during the three and nine months ended September 30, 2015.

Note 6: Long-term Incentive Plans

A. H. Belo sponsors a long-term incentive plan under which 8,000,000 common shares were authorized for equity based awards. Awards may be granted to A. H. Belo employees and outside directors in the form of non-qualified stock options, incentive stock options, restricted shares, RSUs, performance shares, performance units or stock appreciation rights. In addition, stock options may be accompanied by full and limited stock appreciation rights. Rights and limited stock appreciation rights may also be issued without accompanying stock options.

The intrinsic value of outstanding options at September 30, 2015 was \$276. The vested and exercisable weighted average remaining contractual term of stock options outstanding as of September 30, 2015 was 2.0 years. The expense associated with all outstanding options was fully recognized in prior years.

Restricted Stock Units. Under A. H. Belo's long-term incentive plan, the Company's board of directors periodically awards RSUs. The RSUs have service conditions and vest over a period of up to three years. Vested RSUs are redeemed 60 percent in A. H. Belo Series A common stock and 40 percent in cash. As of September 30, 2015, the liability for the portion of the award to be redeemed in cash was \$532. The table below sets forth a summary of RSU activity under its long-term incentive plan.

Note 7: Income Taxes

Income taxes are recorded using the asset and liability method. The provision for taxes reflects the Company's estimate of the effective tax rate expected to be applied for the full fiscal year, adjusted for any discrete transactions which are reported in the period in which they occur. The estimated effective tax rate is re-evaluated each quarter based on the Company's estimated tax expense for the year. If a reliable estimate cannot be made of the annual effective tax rate, which could be caused by the significant variability in rates when marginal earnings are expected for the year and significant permanent or temporary differences exist, a discrete tax rate is calculated for the period.

The Company recognized income tax provision (benefit) from continuing operations of \$(188) and \$1,156 for the three months ended September 30, 2015 and 2014, respectively, and \$(5,601) and \$3,475 for the nine months ended September 30, 2015 and 2014, respectively. Effective income tax rates from continuing operations were 56.3 percent and 16.9 percent for 2015 and 2014, respectively. The effective tax rate is affected by recurring items such as tax rates and income in jurisdictions which we expect to be fairly consistent in the near term. The tax benefit recorded for the three months ended September 30, 2015, primarily reflects taxable losses from operations and changes in estimates on certain tax positions. The tax benefit recorded for the nine months ended September 30, 2015, also reflects a reduction in the valuation allowance for deferred tax assets of \$3,993 as a result of DMV acquisition-date deferred tax liabilities assumed. The Company expects to recover current year tax benefits through a carry back against taxes paid in 2014.

Note 8: Pension and Other Retirement Plans

Defined Benefit Plans. The Company sponsors two defined benefit pension plans, the A. H. Belo Pension Plans I and II (collectively the "A. H. Belo Pension Plans"). A. H. Belo Pension Plan I provides benefits to certain employees primarily employed with *The Dallas Morning News* or the A. H. Belo corporate offices. A. H. Belo Pension Plan II provides benefits to certain employees of The Providence Journal Company, the obligation for which was retained by the Company in the sale transaction of the newspaper operations of *The Providence Journal*. No additional benefits are accruing under the A. H. Belo Pension Plans, as future benefits were frozen prior to the plans' effective date.

During the three and nine months ended September 30, 2014, the Company made required contributions of \$5,801 and \$9,927, respectively, to the A. H. Belo Pension Plans. No contributions are required to the A. H. Belo Pension Plans in 2015. Management believes the assumed rate of return on the plans' assets of 6.5 percent continues to be appropriate.

From time to time, the Company, as sponsor of the pension plans, will offer lump sum distributions to plan participants in order to reduce risks to the Company associated with actuarial factors such as returns on the plans' assets and changes in interest and mortality rates. The Company currently has an outstanding offer for lump sum distributions to certain plan participants representing approximately 85 percent of the total projected benefit obligations. The acceptance and settlement of these obligations by the pension plans is expected to be finalized in the fourth quarter of 2015, at which time the Company will measure and record the resulting gain (loss) to accumulated other comprehensive income and pension expense, as applicable.

Net Periodic Pension Benefit

The Company estimates net periodic pension expense or benefit based on the expected return on plan assets, the interest on projected pension obligations and the amortization of actuarial gains and losses in accumulated other comprehensive loss, if required. The table below sets forth components of net periodic pension benefit.

	<i>Three Months Ended</i>		<i>Nine Months Ended</i>

Amortization of actuarial loss	313	—	938	—
Net periodic pension expense (benefit)	\$ (1,155)	\$ (885)	\$ (3,466)	\$ (2,655)

Defined Contribution Plans. The A. H. Belo Savings Plan, a defined contribution 401(k) plan, covers substantially all employees of A. H. Belo. Participants may elect to contribute a portion of their pretax compensation, as provided by the plan and the Internal Revenue Code. Employees can contribute up to 100 percent of their annual eligible compensation (less required withholdings and deductions) up to statutory limits. The Company provides an ongoing dollar-for-dollar match of eligible employee contributions, up to 1.5 percent of the employees' compensation on a per-pay-period basis. During the three months ended September 30, 2015 and 2014, the Company recorded expense of \$239 and \$222, respectively, and during the nine months ended September 30, 2015 and 2014, the Company recorded expense of \$765 and \$743, respectively, for matching contributions to this plan.

Note 9: Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss contains actuarial gains and losses associated with the A. H. Belo Pension Plans and gains and losses resulting from negative plan amendments and other actuarial experience related to other post-employment benefit plans. The Company records amortization of accumulated other comprehensive loss in employee compensation and benefits in its consolidated statements of operations. Gains and losses associated with the A. H. Belo Pension Plans are amortized over the weighted average remaining life expectancy of the participants. Gains and losses associated with the Company's other post-employment benefit plans are amortized over the average remaining service period of active plan participants. The net deferred tax assets associated with accumulated other comprehensive loss are fully reserved.

The table below sets forth the changes in accumulated other comprehensive loss, net of taxes.

Holders of service-based RSUs participate in A. H. Belo dividends on a one-for-one share basis. Distributed and undistributed income associated with participating securities is included in the calculation of EPS under the two-class method as prescribed under ASC 260 – *Earnings Per Share*.

A total of 699,780 and 995,709 options and RSUs outstanding during the three and nine months ended September 30, 2015, and 2014, respectively were excluded from the calculation because they did not affect the earnings per share for common shareholders or the effect was anti-dilutive.

Note 11: Contingencies

Legal proceedings. A number of legal proceedings are pending against A. H. Belo. In the opinion of management, liabilities, if any, arising from these legal proceedings would not have a material adverse effect on A. H. Belo’s results of operations, liquidity or financial condition.

Pro-rata dividends. In conjunction with the acquisition of DMV, the contribution agreement provides for a pro-rata dividend of 100 percent and 50 percent of DMV’s free-cash flow for fiscal years 2015 and 2016, respectively. Free-cash-flow is defined as earnings before interest, taxes, depreciation and amortization less capital expenditures, debt amortization and interest expense, as applicable.

[Table of Contents](#)

Redeemable noncontrolling interest. In connection with the acquisition of DMV, the Company entered into a shareholder agreement which provides for a put option to a noncontrolling shareholder. The put option provides the shareholder with the right to require the Company to purchase up to 25 percent of his ownership interest between the second and third anniversaries of the agreement and up to 50 percent of his ownership interest between the fourth and fifth anniversaries of the agreement.

The exercisability of the noncontrolling interest put arrangement is outside of the control of the Company. As such, the redeemable noncontrolling interest of \$1,263 is reported in the mezzanine equity section in the condensed consolidated balance sheets as of September 30, 2015. In the event that the put options expire unexercised, the related portion of noncontrolling interest would be classified as a component of equity in the condensed consolidated balance sheets.

Redeemable noncontrolling interests are recorded at fair value on the acquisition date and the carrying value adjusted each period to the greater of the estimated redemption value or the value that would otherwise be assigned if the interests were not redeemable. Changes in redemption value are recorded to retained earnings or additional paid in capital, as applicable, and have no effect to earnings of the Company. No adjustments to the carrying value of redeemable noncontrolling interests have been recorded since the January 2, 2015 acquisition date of DMV.

Note 12: Segment Reporting

The Company has identified two reportable segments based on management and internal reporting structures as well as product and service offerings: Publishing and Marketing and Event Marketing Services (“MEMS”).

The Publishing segment includes the Company’s core print operations associated with its newspapers, niche publications and related websites, which generate print and digital advertising and subscription sales. Also included are the commercial printing and distribution services primarily related to national and regional newspapers and preprint advertisers as these services leverage the production and other operating assets of this segment to provide additional contribution margin. The Company evaluates Publishing operations based on operating profit and cash flows from operating activities.

[Table of Contents](#)

The MEMS segment is comprised of the Company's marketing services and event marketing businesses. Marketing services includes the operations related to the January 2015 acquisition of DMV as well as operations related to Speakeasy and 508 Digital. Event marketing includes the operations of Crowdsourc and Untapped Festivals. The Company evaluates MEMS operations based on revenue growth and operating profit as these businesses continue to expand within their respective markets.

Note 13: Severance Costs

The Company has initiated cost reductions through a voluntary severance option offered to certain newsroom employees and other headcount reductions. Through these initiatives, the Company eliminated 70 positions resulting in severance and other related costs of approximately \$2,800 in employee compensation and benefits for the three and nine months ended September 30, 2015. As of September 30, 2015, the Company recorded a liability in other accrued expenses of \$533 for additional employee separations to occur through February 2016. The combined impact of these reductions will allow the Company to add new positions to support a growing digital platform.

Belo intends for the discussion of its financial condition and results of operations that follows to provide information that will assist in understanding its financial statements, the changes in certain key items in those statements from period to period, and the primary factors that accounted for those changes, as well as how certain accounting principles, policies and estimates affect its financial statements. Advertising and marketing services revenue

The Company's traditional revenues are generated from advertising within its core newspapers, niche publications and related websites and from subscription and single copy sales of its printed newspapers. As a result of competitive conditions, the Company and the newspaper industry have faced a significant decline in core advertising revenue over the past decade. The Company has sought to diversify its revenues through development of product extensions and new products and investment in companies acquired to add new channels of marketing, increased home delivery rates and leveraging of its existing assets to offer cost efficient printing and distribution services to its local markets. The Company is focused on stabilizing revenue primarily through expansion of its marketing services operations, as evidenced through the acquisition of DMV in January 2015, and through growth of its event marketing services provided by Crowdsourc and Untapped.

Advertising revenue from core newspapers continues to be adversely affected by decreased national advertiser spending as well as the shift of advertiser spending to other forms of media. Decreases in print display and classified categories are indicative of continuing trends by advertisers towards digital advertising, which is widely available from many sources. Companies are redistributing more of their advertising budgets towards programmatic channels to acquire digital advertising on multiple platforms which provides for targeted delivery and measurement. The Company has responded to these challenges by expanding its use of programmatic channels and developing its own programmatic platform to meet customer demands for digital ad placement opportunities in display, mobile, video and social categories.

Expanded digital and marketing services product offerings have allowed the Company to leverage the Company's existing resources and relationships to offer additional value to present and new advertising clients. Through Speakeasy and 508 Digital, business customers are offered turn-key solutions for social media and online reputation management, content development for mobile website and email marketing, search engine marketing and optimization, and advertising analytics. The businesses comprising the DMV acquisition specialize in marketing automation, search engine marketing, direct mail and promotional products, respectively. This acquisition complements and expands the product and service offerings currently available to A. H. Belo clients, thereby strengthening the Company's diversified product portfolio and allowing for greater penetration in a competitive advertising market.

The following summarizes year-over-year performance in advertising and marketing service revenue for the three and nine months ended September 30, 2015, by category.

Display advertising – As advertisers continue to diversify marketing budgets to incorporate more and varied avenues of reaching consumers, traditional display advertising continues to decline. Although volumes have remained relatively flat in 2015, lower rates are being offered to customers in response to competitive pressures. Overall rates received from advertisers declined by approximately

[Table of Contents](#)

14 percent and 13 percent, for the three and nine months ended September 30, 2015, respectively. Revenue decreased for most display categories, with electronics and furniture advertisements accounting for most declines in both periods.

Classified advertising – Classified advertising remains challenged as alternative digital outlets continue to emerge. Overall classified revenue decreased in both periods due to lower volumes in all categories except legal advertising. This decline was partially offset by higher rates in the employment category.

Preprint advertising – Revenue was flat during the three months ended September 30, 2015, due to stabilization of preprint newspaper inserts and decreased in the nine months ended September 30, 2015, due to a decline in the volume of preprint newspaper inserts, consistent with the decline in circulation volumes and due to lower volumes in home delivery mail advertising.

Digital advertising – Digital revenue is primarily comprised of online display and classified advertising which consists of advertising placed on the Company's websites or through programmatic advertising channels. Online classified is comprised of digital listings in auto, real estate, employment and other categories, including the Company's resale of affiliate products such as [cars.com](#). Online banner and other display advertising increased by 29.5 percent and 13.7 percent to \$2,369 and \$6,575 during the three and nine months ended September 30, 2015, respectively. Online classified increased (decreased) by 4.7 percent and (3.3) percent to \$4,084 and \$11,479 during the three and nine months ended September 30, 2015, respectively. In the fourth quarter of 2014, the Company divested of its membership interest in Classified Ventures, the owner of [cars.com](#), and entered into a modified affiliate agreement allowing *The Dallas Morning News* to resell [cars.com](#) products and services exclusively in its local market. The modified agreement increases the wholesale rate that the Company pays to Classified Ventures for selling on the [cars.com](#) platform. Declines in online classified advertising are driven by decreases of \$124 and \$618 related to [cars.com](#) in the three and nine months ended September 30, 2015, respectively.

Marketing services – The Company began generating marketing services revenue in 2013 with 508 Digital and Speakeasy. The acquisition of DMV in January 2015 added three more marketing services companies. Marketing services revenue more than doubled as a result of growth at Speakeasy of approximately \$679 and \$1,355 in the three and nine months ended September 30, 2015, as well as \$2,370 and \$6,124, respectively, of incremental revenue from the acquired entities in the three and nine months ended September 30, 2015.

Circulation revenue

Circulation revenue declined slightly from the prior year as the benefit from recent rate increases substantially offset volume declines. Volumes have decreased for both home delivery and single copy sales, with more notable decline in single copy sales as newspapers compete for prime retail placement. Home delivery and single copy paid print circulation volumes declined 8.9 percent and 12.5 percent, respectively, for the three months ended September 30, 2015, and 8.3 percent and 15.8 percent, respectively, for the nine months ended September 30, 2015. These declines were offset by an effective rate increase of approximately 6.7 percent for home delivery throughout the year. Effective rates for single copy increased for the year by approximately 10 percent but were lower in the third quarter from the prior year by 4 percent.

Printing, distribution and other revenue

Commercial print and distribution – The Company's newspapers aggressively market the capacity of their printing and distribution assets to other newspapers that would benefit from cost sharing arrangements. Revenue decreased for the three months ended September 30, 2015, by \$405 due to lower circulation volumes and increased for the nine months ended September 30, 2015, by \$812 primarily due to the commencement of commercial printing services in March 2014 for various regional and community newspapers. Additional revenue declines of \$246 and \$968 were recognized for the three and nine months ended September 30, 2015, respectively, due to the loss of a significant contract for mailed insert advertisements.

Event marketing and other – Event marketing revenues increased \$473 and \$1,570 for the three and nine months ended September 30, 2015, respectively, as Crowdsourcing expanded its service offerings to include Savor Dallas, a local restaurant event promotion and Untapped, a weekend craft beer and music event, expanded its events across major Texas metropolitan areas.

Employee compensation and benefits – The Company continues to implement measures to optimize its workforce and reduce risk associated with future obligations related to its sponsored pension plans. Employee compensation and benefits increased in the three and nine months ended September 30, 2015, by \$4,776 and \$3,498, respectively, primarily attributed to severance expense of approximately \$2,800 for the three and nine months ended September 30, 2015, as described in Note 13 – Severance Costs. The annualized compensation and benefit savings of the reductions, net of the addition of new digitally-focused positions, is estimated to be \$4,611. Expenses within the Company's Publishing segment decreased in the nine months ended September 30, 2015 due to lower incentive compensation due to fewer annual equity awards and a reduced market price of the Company's stock, as well as reduced salaries and commissions in response to lower sales. For the three and nine months ended September 30, 2015, employee related costs for MEMS grew by \$1,601 and \$4,329, respectively, primarily due to higher salaries related to expanded marketing services resulting from the acquisition of DMV and its approximately 45 employees.

Other production, distribution and operating costs – Expenses increased in the Company's Publishing segment as a result of continuing initiatives to develop new products and service offerings. Year-to-date increases were primarily due to increased wholesale fees related to the *cars.com* affiliate agreement and higher costs associated with programmatic platform development to support expanded digital advertising and to accommodate greater interactive play between mobile devices; and higher consulting costs to optimize the Company's sales and operating activities. Within the MEMS segment, expenses increased due to higher costs associated with the Company's marketing services and event marketing operations as those businesses continue to grow. For the three and nine months ended September 30, 2015, MEMS expenses grew by \$1,180 and \$3,068, respectively.

[Table of Contents](#)

Newsprint, ink and other supplies – Expenses decreased due to reduced newsprint rates and lower consumption, consistent with lower circulation volumes of Company and certain third-party newspapers, offset by higher costs for purchased supplements and inserts. Newsprint consumption for the three months ended September 30, 2015 and 2014, approximated 7,516 and 8,607 metric tons, respectively, at an average cost per metric ton of \$550 and \$618, respectively. Newsprint consumption approximated 23,162 and 25,354 metric tons for the nine months ended September 30, 2015 and 2014, respectively, at an average cost per metric ton of \$543 and \$580, respectively.

Depreciation – Expenses decreased due to a lower depreciable asset base as a higher level of in-service assets are fully depreciated.

Amortization – Expense increased due to the amortization of finite-lived intangible assets acquired in conjunction with the Company's purchase of DMV.

Other

The table below sets forth the other components of the Company's results of operations.

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2015	Percentage Change	2014	2015	Percentage Change	2014
Other Income (Expense), Net						
Income (loss) on equity method investments, net	\$ (564)	(96.3)%	\$ (953)	\$ (288)	(98.5)%	\$ 17,206
Other income (expense), net	(489)	(477.3)%	3,878	(912)	264.0 %	4,136
Total other income (expense), net	\$ (1,053)	(99.2)%	\$ 2,925	\$ (1,200)	(100.8)%	\$ 21,342
Income tax provision (benefit)	\$ (188)	(77.8)%	\$ 1,156	\$ (5,601)	n/m	\$ 3,475

Other Income (Expense) – Other income (expense) is primarily comprised of gains (losses) from equity method investments and gains (losses) from the sale or disposition of fixed assets. In the three and nine months ended September 30, 2015, losses from operations of equity method investments related to the investment in Wanderful Media. The Company recorded an impairment loss of \$934 in the nine months ended December 31, 2014, after determining that an other-than-temporary decline occurred in the fair value of the Wanderful Media as determined by an independent valuation specialist. The Company attributed the impairment primarily to a decline in business related to Wanderful Media's legacy products. Gains in the nine months ended September 30, 2014, included an \$18,479 gain on the sale of [apartments.com](#) by Classified Ventures.

In the three months ended September 30, 2015, other expense included a loss of \$675 as the Company fully reserved certain convertible notes receivable issued by a digital audio news and information entity. For the nine months ended September 30, 2015, other expense also included a loss of \$292 related to the sale of a building and land in Providence, Rhode Island which formerly served as the administrative headquarters of *The Providence Journal*, and \$412 of costs for the demolition of existing structures on another Providence, Rhode Island property to achieve more favorable market value. Other income of \$3,540 was recorded in the three and nine months ended September 30, 2014, for the receipt of an economic parity payment from the former parent company in conjunction with the dissolution of the jointly-owned partnership holding the Company's investment in Classified Ventures.

Tax provision – The Company recognized income tax provision (benefit) from continuing operations of \$(188) and \$1,156 for the three months ended September 30, 2015 and 2014, respectively, and \$(5,601) and \$3,475 for the nine months ended September 30, 2015 and 2014, respectively. Effective income tax rates from continuing operations were 56.3 percent and 16.9 percent for 2015 and 2014, respectively. The effective tax rate is affected by recurring items such as tax rates and income in jurisdictions which we expect to be fairly consistent in the near term. The tax benefit recorded for the three months ended September 30, 2015, primarily reflects taxable losses from operations and changes in estimates on certain tax positions. The tax benefit recorded for the nine months ended September 30, 2015, also reflects a reduction in the valuation allowance for deferred tax assets of \$3,993 as a result of DMV acquisition-date deferred tax liabilities assumed. The Company expects to recover current year tax benefits through a carry back against taxes paid in 2014. See the Condensed Consolidated Financial Statements, Note 7 – Income Taxes.

Discontinued Operations

On September 3, 2014, The Providence Journal Company, a wholly-owned subsidiary of the Company, completed a transaction for the (i) sale of substantially all of the assets comprising the newspaper operations of *The Providence Journal* and related real property located in Providence, Rhode Island, and (ii) assumption of certain liabilities by LMG Rhode Island Holdings, Inc. ("LMG"), a

[Table of Contents](#)

subsidiary of New Media Investment Group Inc. The purchase price and working capital adjustment was \$48,654, and the Company recorded a pretax gain on the sale of \$17,134 during the three and nine months ended September 30, 2014.

As a result of the above transaction, the activity and balance of *The Providence Journal* is presented as discontinued operations. During the three and nine months ended September 30, 2014, income from discontinued operations included revenues of \$15,079 and \$58,591, respectively, and expenses of \$14,436 and \$54,825, respectively, related to *The Providence Journal*. The Company adjusted the gain on the sale of *The Providence Journal* in the three and nine months ended September 30, 2015, by \$52 and \$62, respectively.

On June 19, 2015, the Company completed the sale of the land and building which served as the administrative headquarters of *The Providence Journal*. Net proceeds of \$6,119 were received in the second quarter of 2015, upon closing of the transaction, generating a loss of approximately \$265. For the nine months ended September 30, 2015, the Company demolished the existing structures on another owned property in Providence, Rhode Island generating a loss of \$412.

Upon completion of these transactions, the Company no longer owns the newspaper operations in Providence, Rhode Island. The Company continues to own and market for sale certain land in Providence, Rhode Island. The Company also retains the obligation for the A. H Belo Pension Plan II, which provides benefits to employees of The Providence Journal Company.

Liquidity and Capital Resources

The Company's cash balance as of September 30, 2015 and December 31, 2014, was \$79,681 and \$158,171, respectively. Working capital as of September 30, 2015 and December 31, 2014, was \$84,646 and \$105,049, respectively. The decrease in cash is primarily a result of distributions to shareholders of a portion of the cash proceeds generated in 2014 from the sale of the Company's interest in Classified Ventures and the sale of *The Providence Journal*, which collectively generated cash proceeds of approximately \$146,000. Other significant uses of cash included acquisition of new businesses and payment of taxes related to the gains on the 2014 divestiture transactions.

In 2015, the Company returned \$58,039 to shareholders through quarterly and special dividends and through its stock repurchase program, as discussed below in Financing Cash Flows. The share repurchase program will expire December 31, 2015, and declaration of future dividends will be dependent upon available cash after considering future operating and investing requirements and cannot be guaranteed.

In January 2015, the Company acquired DMV for \$14,111 through a newly-formed holding company in which the Company has an 80 percent voting interest as described in Note 2 – Acquisitions. The Company paid cash for the acquisition, and transaction costs were \$1,287, of which \$725 were incurred in 2015. This acquisition is part of the Company's revenue diversification strategy, and the Company continues to seek future acquisitions which will complement and leverage the Company's existing products.

In June 2015, the Company completed the sale of a building and land in Providence, Rhode Island which formerly served as the administrative headquarters of *The Providence Journal*. Net sales proceeds of \$6,119 were received and a loss of \$292 was recorded related to the divestiture. For the nine months ended September 30, 2015, costs of \$412 were incurred related to the demolition of existing structures on another Providence, Rhode Island property.

Cash used for continuing operating activities in 2015 totaled \$8,845, which included \$11,599 of tax payments primarily related to the gains on the divestiture of assets in 2014. Cash flows from operations are expected to grow throughout the year as benefits from cost cutting measures are realized and as revenues are expected to increase in the subsequent quarter, consistent with historical trends. The Company is not required to make any pension contributions in 2015 and discretionary spending will be managed according to operating results.

The Company intends to deploy its cash in the long-term interests of the Company, its shareholders and employees as it seeks potential acquisition or investment opportunities complementing its advertising and marketing services products. Management works aggressively to align the current expense structure with changes in revenue and believes existing cash and cash generated from operations will be sufficient to meet foreseeable cash flow requirements for operations, capital spending and pension contributions. The following discusses the changes in cash flows by operating, investing and financing activities.

Operating Cash Flows

Net cash used for continuing operating activities for 2015 and 2014 was \$8,845 and \$4,025, respectively. Cash flows from continuing operations decreased in 2015 due to tax payments of \$11,599 primarily related to the gains on the divestiture of assets in 2014 and

[Table of Contents](#)

severance payments of approximately \$2,800. These expenditures were offset by savings related to cost containment measures. Cash flows (used for) provided by discontinued operations for 2015 and 2014, were \$(23) and \$6,386, respectively, and primarily represented the results of operations from *The Providence Journal*.

Investing Cash Flows

Net cash (used for) provided by continuing investing activities was \$(12,200) and \$19,694 in 2015 and 2014, respectively. Cash flows used for continuing investing activities in 2015 included payments of \$14,111 and \$500 related to acquisitions and investments during the period, respectively. Sales proceeds, net of disposal costs for fixed assets, of \$5,911 were received during 2015 related to the sale of non-core real estate in Providence, Rhode Island. Net sales proceeds of \$3,401 were received in 2014 related to the sale of non-core real estate in Riverside, California and Dallas, Texas. Other investment related proceeds of \$1,046 and \$23,166 were received primarily related to distributions from Classified Ventures, LLC in 2015 and 2014, respectively. Cash flows used for continuing investing activities also included \$4,546 and \$4,594 of capital spending in 2015 and 2014, respectively. Cash flows provided by investing activities of discontinued operations in 2014 were \$44,799 and represented proceeds received from the divestiture of *The Providence Journal*.

Financing Cash Flows

Net cash used for continuing financing activities was \$57,422 and \$40,984 in 2015 and 2014, respectively. Cash used for continuing financing activities included dividend payments of \$55,450 and \$39,225 in 2015 and 2014, respectively. Dividends paid in 2015 included a special dividend of \$2.25 per share declared and recorded in 2014, returning \$50,148 to shareholders and holders of RSUs. In 2015 and 2014, the Company purchased 369,952 and 326,249 shares of its Series A common stock at a cost of \$2,589 and \$3,542, respectively, under its share repurchase program.
