

DallasNews CORPORATION

2022 Annual Report

The Dallas Morning News

About DallasNews Corporation

DallasNews Corporation (Nasdaq: DALN) is the Dallas-based holding company of *The Dallas Morning News* and Medium Giant. *The Dallas Morning News* is Texas' leading daily newspaper with a strong journalistic reputation, intense regional focus and close community ties. Medium Giant is a media and marketing agency of divergent thinkers who devise strategies that deepen connections, expand influence, and scale success for clients nationwide.

DallasNews CORPORATION

March 29, 2023

Dear Fellow Shareholders,

Last year was a year of changes at DallasNews Corporation. These changes included my appointment as Chief Executive Officer and the Board continuing to invest in the business. Throughout this transition, we continued to focus on becoming a sustainably profitable digital media and marketing services company. I am optimistic about the Company's prospects for success, and believe we have as good a chance as any company in our industry to build the financial model of the future.

The first reason for my optimism is that DallasNews Corporation is based in one of the strongest markets in America that continues to attract Fortune 500 companies and many other ventures to relocate here. The second reason is the Company's strong balance sheet that allows us to invest responsibly in the business to ensure we have the digital products and systems needed to meet the evolving needs of our consumers. Thirdly, and very importantly, is our talent. We continue to attract some of the most talented people in the country to *The Dallas Morning News* and Medium Giant. These new colleagues respect the history of what has already been achieved, and share a sense of urgency about finding growth engines that will fuel sustainable growth moving forward.

When I reflect on 2022 I see successes that are building blocks for a sustainable financial model. Total consumer revenue grew at *The News*, and our team increased total membership revenue at its highest rate in 12 years – highlighted by digital subscription revenue growth of 37 percent. This growth would not have been possible without the digital transformation of our Newsroom under the leadership of Katrice Hardy. Katrice has evolved the Newsroom to become more responsive and agile through the creation of our first "Breaking and Trending Team". This team has its fingers on the pulse of what's happening throughout North Texas and helps our readers better understand the changing community around them. Through the first six months of this team's existence, they accounted for a disproportionate number of *The News*' digital membership starts for 2022.

Medium Giant made significant progress in 2022 building its strategic and creative services business that extends beyond its representation of media properties around the country. This focus is critically important because these marketing services clients enter into annual agency agreements, not short term agreements which are commonplace in the media space. In 2022 Medium Giant retained 84 percent of its top 25 marketing services clients, which is notable because it means we are helping them reach their marketing goals.

Lastly, I want to thank our Board, employees and shareholders. Collectively, we know that DallasNews Corporation is taking an approach that is unique to our industry, and we understand the great responsibility that comes with this strategy. In this regard I rely heavily on Katy Murray, our President and Chief Financial Officer, and together we draw energy from the Company's outstanding management team.

It is a true privilege to serve as your Chief Executive Officer, and I assure you that I am committed to the needs of the Company's various constituencies as we work together to achieve longevity for this great institution. The tone and quality of the content DallasNews Corporation creates for its many distribution channels ultimately define who we are and whether what we do has positive effect. The editorial page initiative launched by *The News* in 2022, "The American Middle," embodies this idea, and we will continue to invest in it and similar projects in years to come.

Sincerely,

Grant S. Moise

Chief Executive Officer

CAUTIONARY STATEMENT CONCERNING FORWARD-LOOKING STATEMENTS

Statements in this Annual Report on Form 10-K concerning DallasNews Corporation's (the "Company") business outlook or future economic performance, anticipated profitability, revenues, expenses, cash balance, dividends, capital expenditures, investments, dispositions, impairments, business initiatives, acquisitions, pension plan contributions and obligations, real estate sales, working capital, future financings and other financial and non-financial items that are not historical facts are "forward-looking statements" as the term is defined under applicable federal securities laws. Words such as "anticipate," "assume," "believe," "can," "could," "estimate," "forecast," "intend," "expect," "may," "project," "plan," "seek," "should," "target," "will," "would" and their opposites and similar expressions are intended to identify forward-looking statements. Forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those statements. Such risks, trends and uncertainties are, in most instances, beyond the Company's control, and include changes in advertising demand and other economic conditions; consumers' tastes; newsprint and distribution prices; program costs; the success of the Company's digital strategy; labor relations; cybersecurity incidents; technological obsolescence; and the current and future impacts of the COVID-19 pandemic. Among other risks, there can be no guarantee that the board of directors will approve a quarterly dividend in future quarters or that our financial projections are accurate. Forward-looking statements, which are as of the date of this filing, are not updated to reflect events or circumstances after the date of the statement.

All dollar amounts presented herein the Annual Report on Form 10-K, except share and per share amounts, are presented in thousands, unless the context indicates otherwise.

Item 1. Business

DallasNews Corporation, formerly A. H. Belo Corporation, and its subsidiaries are referred to collectively herein as "DallasNews" or the "Company." DallasNews was formed in February 2008 through a spin-off from its former parent company and is registered on The Nasdaq Stock Market LLC (Nasdaq trading symbol: DALN). DallasNews is the Dallas-based holding company of *The Dallas Morning News* and Medium Giant.

The Dallas Morning News is Texas' leading daily newspaper with a strong journalistic reputation, intense regional focus and close community ties. The company has won nine Pulitzer Prizes and is the oldest continuously operated business in Texas, dating back to 1842.

In addition, the Company has a full-service agency, Medium Giant, with capabilities including strategy, creative and media management with a focus on strategic and digital marketing, and data intelligence that provide a measurable return on investment to its clients.

Business Overview

The Company's goal is to create value for investors by being the premier provider of relevant and original local journalism in North Texas so citizens can make informed choices about their lives and the life of the communities in which they live. This commitment to excellence in journalism attracts and retains subscribers to the print edition, the digital site, and applications.

The print media industry has encountered continuous declines in revenue primarily due to the secular shift of readers and advertisers to digital platforms. The Company has sought to limit its exposure to these industry risks through greater development of its digital platforms for delivery of news and advertising, and leveraging its brand and personnel to enhance its media agency solutions. However, these improvements may not result in a sufficient increase in revenue to offset the declines the Company is experiencing in its traditional print media business.

The Company operates *The Dallas Morning News* (dallasnews.com), Texas' leading newspaper and various niche publications targeting specific audiences. These operations generate revenue from sales of advertising within the Company's newspaper and digital platforms, subscriptions and retail sales of its newspapers, commercial printing and distribution services primarily related to national newspapers, and preprint advertising.

The Dallas Morning News' first edition was published on October 1, 1885. *The News* is one of the leading metropolitan newspapers in the United States. The newspaper is distributed primarily in Dallas County and five surrounding counties. This coverage area represents one of the most populous and fastest growing metropolitan areas in the country. *The News* has been awarded nine Pulitzer Prizes for news reporting, editorial writing and photography. *The News* also publishes *Briefing* and *Al Dia*, an award-winning Spanish-language newspaper, both distributed on Wednesdays at no charge to households in select coverage areas. Unless otherwise noted, the financial and operating results of all publications are reported as *The Dallas Morning News*.

Businesses producing and providing services within the print and newspaper industry have encountered significant declines in revenue as a result of increasing use of the internet for delivery of information. These businesses have been challenged to find alternative solutions to offset the loss of revenue. The majority of revenues within the newspaper industry were historically generated from display and classified advertisements followed by revenues from subscriptions and retail sales of newspapers. Revenues from subscriptions and retail sales of newspapers have experienced greater resilience as readers have been willing to pay higher prices for the product, which has substantially offset lower circulation volumes. The Company has faced ongoing revenue declines primarily in print advertising and expects these trends to continue. As a result the Company is moving to a more digital news format to offset some of its declines in print, specifically around advertising.

In addition to traditional print and digital advertising, the Company has a full-service agency, Medium Giant, with capabilities including strategy, creative and media management with a focus on strategic and digital marketing, and data intelligence that provide a measurable return on investment to its clients. Through the full-service capabilities, we are able to offer businesses comprehensive, strategic and creative marketing solutions which allow our clients to connect with their business, their brand and their audiences to drive growth. The Company has aligned management and its sales teams to provide a cross-functional integrated approach to maximize the development of these businesses. Digital marketing services are provided through the following service offerings:

- Multi-channel marketing solutions through subscription sales of the Company's cloud-based software, allowing customers to manage and individualize their marketing campaigns. In addition, multi-channel marketing services are provided to customers without access to the proprietary software.
- Digital and strategic marketing services, paid media strategy and management, and other marketing related services. Multi-channel digital advertising and marketing services campaigns for customers, allowing them to target demographic audiences using data analytics and determine the delivery media such as email campaigns, banner impressions or video views on third-party websites.

The following describes the Company's various revenue streams.

Advertising and Marketing Services Revenue - Advertising and marketing services revenue accounted for approximately 46 percent of total revenue for 2022.

The Company has a comprehensive portfolio of print advertising products, which include display, classified and preprint advertising. Display revenue results from sales of advertising space within the Company's core newspapers and niche publications to local, regional or national businesses with local operations, affiliates or resellers. Classified revenue, which includes automotive, real estate, employment, obituaries and other, results from sales of advertising space in the classified and other sections of the Company's newspapers. Preprint revenue results from sales of preprinted advertisements or circulars inserted into the Company's core newspapers, niche publications, and distributed to publications in other markets, or distributed by mail or through third-party distributors to households in targeted areas in order to provide total market coverage for advertisers. The Company's capabilities allow its advertisers to target preprint distribution selectively at the sub-zip code level in order to optimize coverage for the advertisers' locations. Preprint advertising also includes other services revenue related to the Company's niche publications.

The Company's digital advertising and marketing services revenue consists of strategic marketing services, consulting, branding, paid media strategy and management, creative services, search optimization, direct mail and the sale of promotional materials, as well as providing multi-channel marketing solutions through subscription sales of the Company's cloud-based software. In addition, it includes digital sales of banner, classified and native advertisements on the Company's news and entertainment-related websites and mobile apps, as well as targeted and multi-channel (programmatic) advertising placed on third-party websites.

Circulation Revenue - Circulation revenue accounted for approximately 43 percent of total revenue for 2022 and includes subscriptions and single copy sales related to the Company's core newspapers in print and digital formats. DallasNews' steadfast commitment to producing superior, unduplicated local journalism enables the Company's newspapers to charge premium subscription rates. *The Dallas Morning News'* goal is to maximize the amount of recurring revenue from consumers of the Company's print and digital products. The Company continuously assesses the journalism provided to subscribers and their willingness and ability to pay higher rates by geographic area. The Company has implemented effective rate increases to select subscribers or retailers. A digital replica version of *The Dallas Morning News* is offered for subscribers to purchase if they prefer to consume news through a digital device in a more traditional format. DallasNews' newspapers and the newspaper industry as a whole are challenged to maintain and grow print circulation volume. To the extent circulation volume declines cannot be offset by rate increases, the Company will realize lower circulation revenue. Circulation volume declines could also result in lower rates and volumes for advertising revenue.

The Company's news websites, including dallasnews.com and aldiadallas.com, are the leading English and Spanish news and entertainment digital platforms in the North Texas region. The news websites offer late-breaking and other up-to-date news coverage, user-generated content, advertising, e-commerce and other services. Readers can access news content across multiple digital platforms and obtain relevant local customized content and advertising. The Company's journalists have expanded their reach and deepened their engagement with audiences by delivering news and content through social media platforms such as blogs, Facebook and Twitter, which direct traffic to the core websites. The Company's success depends to a significant extent on its ability to develop and manage the digital business in response to the changes in consumers' preferences and behaviors, as well as changes to advertising expenditures, as described above.

Printing, Distribution and Other Revenue - Printing, distribution and other revenue accounted for approximately 11 percent of total revenue for 2022 and includes commercial printing, distribution, and shared mail packaging services. The Company's commercial printing and distribution services leverage the capacity of its production and distribution assets. The Company believes the incremental revenue from these services allows a greater return from the Company's operating assets.

Commercial printing and delivery services are provided for certain national newspapers. A shared mail packaging business is operated in Tempe, Arizona, providing mailed advertisements for business customers.

Raw Materials and Distribution

The basic material used in publishing newspapers is newsprint. The Company has a Paper Supply Agreement, expiring in August 2025, with Gannett Supply Corporation ("Gannett"), a newsprint broker, which will be the Company's sole supplier of newsprint from designated newsprint suppliers at market-based prices during the term of the agreement, except in certain specified instances. The agreement is renewable for successive one-year terms upon mutual agreement of the parties, and is terminable by either party on 180 days prior written notice. This agreement allows the Company access to multiple mills at competitive pricing. Prior to the Gannett agreement, the Company's newsprint was obtained through a purchasing consortium. Management believes the Gannett agreement provides adequate sources of newsprint to meet the Company's current needs. Significant increases in newsprint costs or the Company's inability to obtain an adequate supply of newsprint in the future could adversely affect its financial condition and results of operations.

During 2022, Company operations consumed 7,735 metric tons of newsprint at an average cost of \$728 per metric ton. Consumption of newsprint in 2021 was 8,405 metric tons at an average cost of \$572 per metric ton.

The Company's newspapers and other commercial print products are produced at its facility in Plano, Texas. Distribution of printed products to subscribers, retailers and newsstands is made under terms of agreements with third-party distributors. The Company believes a sufficient number of third-party distributors exist to allow uninterrupted distribution of the Company's products. However, if third-party service providers face financial difficulties or terminate their relationship with the Company, this could adversely affect the Company's ability to satisfy its customers or operate the business, and could affect results of operations.

Competitive Strengths and Challenges

The Company's strengths include:

- the largest news-gathering operation in North Texas
- the opportunity to build valuable first-party data sets about consumers in North Texas due to the millions of unique visitors who come to the Company's websites monthly
- the ability to develop innovative new product and service offerings which leverage the Company's brand equity, existing content, distribution platforms, technologies and relationships
- the ability to provide clients with full-service agency capabilities including strategy, creative, website development, and media management which allow our clients to connect with their business, their brand and their audiences
- sufficient liquidity to allow the Company to invest opportunistically in the Company's business
- an affluent and educated demographic base in its market centered around one of the fastest growing regions in the country
- the ability to market print or digital products and services to large and targeted audiences at low marginal costs
- a large sales force with knowledge of the marketplaces in which the Company conducts its business, and relationships with current and potential print and digital advertising clients
- the ability to manage operating costs effectively according to market pressures

The Company's challenges include:

- timely growth of revenue and profits related to the Company's agency, digital services and digital subscriptions businesses that would provide for an offset to declines in revenue and profits related to the Company's print advertising and print circulation
- operating in a competitive environment with increased competition from other media, particularly internet-based media provided to customers at no cost
- effective monetization of locally-created online content on the Company's websites while balancing the impact of potential lower traffic volumes with an established metered-based model

In response to the decline in print revenue, the Company has developed agency and digital advertising capabilities through multiple media channels. The Company leverages its news content to improve engagement on the Company's digital platforms that results in increased digital subscriptions and associated revenue. The Company also continues to diversify its revenue base by leveraging the available capacity of its existing assets to provide print and distribution services for newspapers and other customers requiring these services, by introducing new advertising and marketing services products, and by increasing circulation prices.

Because of declining print circulation, the Company has developed broad digital strategies designed to provide readers with multiple platforms for obtaining online access to local news. The Company continues to obtain additional key demographic data from readers, which allows the Company to provide content desired by readers and to modify marketing and distribution strategies to target and reach audiences valued by advertisers. The Company has access to programmatic digital advertising platforms that provide digital ad placement and targeting efficiencies and increases utilization of digital inventory within the Company's websites. Additionally, in order to optimize owned and operated digital advertising revenue, the Company has adopted a holistic yield management approach powered by real-time bidding technologies and data analysis to ensure the optimal mix of direct sales and programmatic ad sales is achieved.

Strategy

DallasNews is committed to producing quality journalism for its communities and providing innovative digital marketing solutions for its customers through its agency capabilities, while creating value for shareholders over the long-term. The Company continuously evaluates its operations and investments against various economic factors to determine the appropriate current strategies.

The Company is committed to maintaining the leading digital and print platforms for delivering news of the highest quality and reliability in the North Texas area, as well as creating and developing innovative print and digital marketing services capabilities that address the needs of clients and advertisers.

The Company seeks to achieve these objectives through the following strategies:

- produce quality local journalism at scale, distributed through digital platforms that improve user engagement and result in increased digital subscriptions and customer retention
- develop new ways to grow advertising dollars on the Company's digital platforms
- grow recurring advertising and digital marketing services revenue through a client-first approach and enhanced full-service agency capabilities
- improve print revenues and increase utilization of operating assets by maintaining profitable print and distribution services to third parties
- continue to align costs with revenue, maintain strong liquidity to support future business and product initiatives, and provide flexibility to meet strategic investment opportunities and other cash flow requirements

Competition

DallasNews' newspapers, niche publications and related websites primarily serve audiences in the North Texas area. The Company competes for advertising revenue for its newspapers and websites with other print and agency companies. Advertising revenues for the Company's newspapers and websites are responsive to circulation and traffic volumes, demographics of their subscriber bases, advertising results, rates and customer service. Advertising on digital platforms is highly competitive and largely dominated by large internet companies. As advertisers reallocate marketing expenditures from print to digital channels, the Company believes its strong local brand and its full-service agency, Medium Giant, has capabilities that will allow it to offer exclusive advertising and digital marketing solutions to local businesses on a competitive scale.

The Dallas Morning News has the highest paid print circulation in the North Texas area while competing with one other metropolitan newspaper in parts of its geographic market. Circulation revenues are challenged primarily due to free and readily-accessible news, entertainment, advertising and other content available through the internet. This secular shift from print to digital media continues as consumer lifestyles embrace technological advancements, particularly with mobile devices, which provide access to a wide variety of digital news and advertising alternatives, including news and social media websites, online advertising networks and exchanges, online classified services, and direct email advertising. Competition for readers is primarily based on mode of delivery, quality of the Company's journalism, price, timeliness of interaction with audiences, and customer service. News and other digital content produced by the Company's newspapers and niche publications are available via its websites, mobile applications and through email. The Company offers competitive technology for accessing digital content on mobile devices and via personal computers. Journalists engage online readers through blogs, Twitter and other social media posts.

Seasonality

DallasNews' advertising revenues are subject to moderate seasonality, with print and digital advertising revenue typically higher in the fourth calendar quarter of each year because of the holiday shopping season. The level of print and digital advertising sales in any period may also be affected by advertisers' decisions to increase or decrease their advertising expenditures in response to anticipated consumer demand and general economic conditions.

Employees

As of December 31, 2022, the Company had 663 employees of which approximately 21 percent were represented by a labor union. The Company is in the process of finalizing an initial collective bargaining agreement. While there have not been any operational disruptions to date, the Company cannot predict the timing or outcome of these negotiations.

The Company considers its relationships with its employees to be very good and is committed to an equitable and inclusive workplace that reflects the diversity of its local readers and the communities it serves.

Available Information

DallasNews maintains its corporate website at dallasnewscorporation.com, which makes available, free of charge, this Annual Report on Form 10-K, its Quarterly Reports on Form 10-Q, its Current Reports on Form 8-K and amendments to those reports, as filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (the "Exchange Act"), as amended, as soon as reasonably practicable after the reports are electronically filed with or furnished to the Securities and Exchange Commission (the "SEC").

Item 1B. Unresolved Staff Comments

None.

Item 2. Properties

Operations	Ownership	Location
Corporate and <i>The Dallas Morning News</i>	Leased	Dallas, Texas
Printing facilities	Owned	Plano, Texas
Former sales operations (subleased)	Leased	Dallas, Texas
Shared mail packaging office and warehouse	Leased	Tempe, Arizona

In addition to the properties above, the Company has various leased locations it uses for news reporting and the distribution of the Company's publications, and it leases property in Tulsa, Oklahoma used for sales operations. As of December 31, 2022, in aggregate, the Company leased facilities for current use consisting of approximately 263,000 square feet and owns property that includes land and a building consisting of approximately 1,258,000 square feet.

Item 3. Legal Proceedings

A number of legal proceedings are pending against DallasNews. In the opinion of management, liabilities, if any, arising from these legal proceedings would not have a material adverse effect on DallasNews' results of operations, liquidity or financial condition. DallasNews and its subsidiaries may be subject to litigation, including matters relating to alleged libel or defamation, governmental proceedings and investigations. Adverse determinations in any such matters could require DallasNews to make monetary payments or result in other sanctions or findings that could adversely affect the Company's business, financial condition and results of operations. Insurance coverage, if any, may not be adequate to cover all costs and/or losses. In some instances, the Company may have a contractual obligation from a third-party to indemnify liabilities related to litigation or governmental investigation, but if the third-party fails to indemnify us, the Company would be responsible for monetary damages.

Item 4. Mine Safety Disclosures

None.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

The Company's authorized common equity consists of 31,250,000 shares of common stock, par value \$.01 per share. The Company has two series of common stock outstanding, Series A and Series B. Shares of the two series are identical in all respects except as noted herein. Shares of Series B common stock are entitled to 10 votes per share on all matters submitted to a vote of shareholders, and shares of Series A common stock are entitled to one vote per share. Transferability of the Series B common stock is limited to family members and affiliated entities of the holder. Shares of Series B common stock are convertible at any time on a one-for-one basis into shares of Series A common stock and upon a transfer, other than as described above, shares of Series B common stock automatically convert into Series A common stock. Since June 29, 2021, the Company's Series A common stock has been traded on The Nasdaq Stock Market LLC (Nasdaq trading symbol: DALN). Prior to that time, shares of the Company's Series A common stock was traded on the New York Stock Exchange (NYSE trading symbol: AHC) and began trading on February 11, 2008. There is no established public trading market for shares of Series B common stock.

The declaration of dividends is subject to the discretion of DallasNews' board of directors. The determination as to the amount declared and its timing depends on, among other things, DallasNews' results of operations and financial condition, capital requirements, other contractual restrictions, prospects, applicable law, general economic and business conditions and other future factors that are deemed relevant. The board of directors generally declares dividends during the quarter preceding its stated measurement and payment dates. DallasNews cannot provide any assurance that future dividends will be declared and paid due to the factors discussed in the "Cautionary Statement Concerning Forward-Looking Statements" and elsewhere in this Annual Report on Form 10-K. The table below sets forth the high and low sales prices reported on The Nasdaq Stock Market LLC for a share of the Company's common stock and the recorded cash dividends per share declared for the past two years.

	Stock Price			Dividends Declared (1)(2)
	High	Low	Close	
2022				
Fourth quarter	\$ 5.42	\$ 3.73	\$ 3.86	\$ 0.16
Third quarter	8.49	4.51	4.64	1.66
Second quarter	7.05	5.99	6.33	0.16
First quarter	7.56	6.26	7.00	0.16
2021				
Fourth quarter	\$ 7.60	\$ 6.28	\$ 7.22	\$ 0.16
Third quarter	7.75	6.27	6.81	0.16
Second quarter	9.48	6.51	7.22	0.16
First quarter	12.64	6.09	8.36	0.16

(1) Cash dividends are recorded in the period declared. This table reflects the period the dividends were paid.

(2) On August 22, 2022, the Company's board of directors declared a special, one-time \$1.50 per share dividend to shareholders of record as of the close of business on September 9, 2022, which was paid on September 30, 2022, returning \$8,029 to shareholders.

The closing price of the Company's Series A common stock as reported on The Nasdaq Stock Market LLC on March 6, 2023, was \$4.53. The approximate number of shareholders of record of the Company's Series A and Series B common stock at the close of business on March 6, 2023, was 279 and 68, respectively.

Equity Compensation Plan Information

The information set forth under the heading "Equity Compensation Plan Information" contained in the definitive Proxy Statement for the Company's Annual Meeting of Shareholders, to be held on May 11, 2023 is incorporated herein by reference.

Sales of Unregistered Securities

During 2022 and 2021, shares of the Company's Series B common stock in the amounts of 192 and 2,335, respectively, were converted, on a one-for-one basis, into shares of Series A common stock. The Company did not register the issuance of these securities under the Securities Act of 1933 (the "Securities Act") in reliance upon the exemption under Section 3(a)(9) of the Securities Act.

Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations

DallasNews intends for the discussion of its financial condition and results of operations that follows to provide information that will assist in understanding its financial statements, the changes in certain key items in those statements from period to period, and the primary factors that accounted for those changes, as well as how certain accounting principles, policies and estimates affect its financial statements. The following information should be read in conjunction with the Company’s consolidated financial statements and related notes filed as part of this report. All dollar amounts presented herein, except share and per share amounts, are in thousands, unless the context indicates otherwise.

This section and other parts of this Annual Report on Form 10-K contain certain forward-looking statements. Forward-looking statements are subject to risks, uncertainties and other factors that could cause actual results to differ materially from those statements. See the Cautionary Statement Concerning Forward-Looking Statements of this Annual Report for further discussion.

OVERVIEW

DallasNews Corporation, formerly A. H. Belo Corporation, and its subsidiaries are referred to collectively herein as “DallasNews” or the “Company.” DallasNews was formed in February 2008 through a spin-off from its former parent company and is registered on The Nasdaq Stock Market LLC (Nasdaq trading symbol: DALN). DallasNews is the Dallas-based holding company of *The Dallas Morning News* and Medium Giant.

The Company operates *The Dallas Morning News* (dallasnews.com), Texas’ leading newspaper and winner of nine Pulitzer Prizes, and various niche publications targeting specific audiences. These operations generate revenue from sales of advertising within the Company’s newspaper and digital platforms, subscriptions and retail sales of its newspapers, commercial printing and distribution services primarily related to national newspapers, and preprint advertising.

In addition, the Company has a full-service agency, Medium Giant, with capabilities including strategy, creative and media management with a focus on strategic and digital marketing, and data intelligence that provide a measurable return on investment to its clients.

The Company transferred its stock exchange listing from the New York Stock Exchange (“NYSE”) to The Nasdaq Stock Market LLC (“Nasdaq”) and changed its corporate name to DallasNews Corporation. The listing and trading of the Company’s Series A common stock on the NYSE ceased trading at market close on June 28, 2021, and began trading on Nasdaq at market open on June 29, 2021, under the ticker symbol “DALN.”

In May 2021, at the Company’s 2021 annual meeting of shareholders, its shareholders approved a reverse stock split at a ratio of not less than one-for-three and not more than one-for-five, with the exact ratio to be determined by the Company’s board of directors. Following the annual meeting, the Company’s board of directors approved a one-for-four reverse stock split of its issued, outstanding and treasury shares of common stock, par value \$0.01 per share, which became effective June 8, 2021. As a result, every four shares of the Company’s issued and outstanding Series A common stock and Series B common stock (and any such shares held in treasury) were converted into one share of Series A common stock and Series B common stock, respectively. All fractional shares were settled in cash, in connection with the reverse stock split, on June 9, 2021. The par value of the Series A and Series B common stock were not adjusted as a result of the reverse stock split and the Company reclassified an amount equal to the reduction in the number of Company shares at par value to additional paid-in capital.

The Company and its business partners are subject to risks and uncertainties caused by factors beyond its control, including macroeconomic factors such as inflation. Although the Company did not see a significant impact from inflation on its financial results in 2022, the cost of raw materials for newsprint and fuel prices to distribute the newspaper did increase. If inflation remains at current levels, or increases, for an extended period, certain operating costs could increase or advertiser spending could be impacted. Beginning in early 2020, the COVID-19 pandemic impacted, and may continue to impact, the Company’s customers, distribution partners, advertisers, production facilities, and third parties, and could result in additional loss of advertising revenue or supply chain disruption. If the pandemic were to affect a significant number of the workforce employed in printing operations, the Company may experience delays or be unable to produce, print and deliver its publications and other third-party print publications on a timely basis. The Company continues to evaluate for any future material impacts on its consolidated financial statements.

Overview of Significant Transactions

Operating results for 2022 reflect relative stability in print advertising and circulation revenue. The Company is committed to maintaining the leading digital and print platforms for delivering news of the highest quality and reliability in the North Texas area, as well as creating and developing innovative print and digital marketing services capabilities that address the needs of clients and advertisers. The Company continues its efforts to diversify revenues through its digital platforms for delivery of news and advertising, growing its paid digital subscriptions, and leveraging its brand and personnel to enhance its media agency solutions. However, there is no guarantee the Company will be able to generate enough digital revenue or margin to offset the possible future loss of print advertising and circulation revenue and margin.

Effective June 30, 2022, the Company and Charter DMN Holdings, LP (the “Purchaser”) entered into an agreement (the “Third Modification Agreement”) extending the maturity date of the promissory note of \$22,400 (the “Promissory Note”), for the sale of the real estate assets previously used as the Company’s headquarters, to July 29, 2022. The unpaid, original principal balance of the Promissory Note accrued interest at the rate of 6.5 percent. On July 29, 2022, the Company was paid in full, receiving cash proceeds of \$22,516, including interest, due from the Purchaser under the Third Modification Agreement.

During the year ended December 31, 2022, the Company performed a review of potential impairment indicators for its long-lived assets, including property, plant and equipment, and right-of-use assets. The Company determined there was no significant decrease in the market value of the long-lived assets or significant change in the extent or manner in which the asset group is being used or in its physical condition as of December 31, 2022, and there was no significant adverse change in legal factors or in the business climate during the period that could affect the value of the asset group. Based upon the review of indicators, the Company did not identify any events or changes in circumstances that indicate the carrying amount of long-lived assets may not be recoverable. See Note 3 – Leases for information on right-of-use asset impairments occurring in 2022 and 2021.

In the third quarter of 2022, the Company made a board approved voluntary contribution of \$5,000 to the DallasNews Corporation Pension Plans (the “Pension Plans”) and its board declared a special, one-time \$1.50 per share dividend, paid on September 30, 2022, returning \$8,029 to shareholders.

Quarterly dividends returned \$11,454 and \$3,425 to shareholders in 2022 and 2021, respectively. On December 1, 2022, the Company’s board of directors declared a \$0.16 per share dividend to shareholders of record as of the close of business on February 10, 2023, paid on March 3, 2023.

RESULTS OF OPERATIONS

Consolidated Results of Operations

This section contains discussion and analysis of net operating revenue, operating costs and expense and other information relevant to an understanding of results of operations for 2022 and 2021. Based on how the Company's chief operating decision-maker makes decisions about allocating resources and assessing performance, the Company determined it has one reportable segment.

The table below sets forth the components of DallasNews' operating loss.

	<i>Years Ended December 31,</i>		
	<i>2022</i>	<i>Percentage Change</i>	<i>2021</i>
Advertising and marketing services	\$ 69,667	(4.9) %	\$ 73,271
Circulation	65,191	0.4 %	64,943
Printing, distribution and other	15,793	(2.3) %	16,160
Total Net Operating Revenue	150,651	(2.4) %	154,374
Total Operating Costs and Expense	159,638	(2.9) %	164,324
Operating Loss	\$ (8,987)	9.7 %	\$ (9,950)

Traditionally, the Company's primary revenues are generated from advertising within its core newspapers, niche publications and related websites and from subscription and single copy sales of its printed newspapers. As a result of competitive and economic conditions, the newspaper industry has faced a significant revenue decline over the past decade. Therefore, the Company has sought to diversify its revenues through development and investment in new product offerings, increased circulation rates and leveraging of its existing assets to offer cost efficient commercial printing and distribution services. The Company continually evaluates the overall performance of its core products to ensure existing assets are deployed adequately to maximize return.

The Company's advertising revenue from its core newspapers continues to be adversely affected by the shift of advertiser spending to other forms of media and the increased accessibility of free online news content, as well as news content from other sources, which resulted in declines in advertising and paid print circulation volumes and revenue. Decreases in print display and classified categories are indicative of continuing trends by advertisers towards digital platforms, which are widely available from many sources. In the current environment, companies are allocating more of their advertising spending towards programmatic channels that provide digital advertising on multiple platforms with enhanced technology for targeted delivery and measurement.

In response to the decline in print revenue, the Company has developed agency capabilities, including strategy, creative and media management with a focus on strategic and digital marketing, and data intelligence that provide a measurable return on investment to its clients. The Company leverages its news content to improve engagement on the Company's digital platforms that results in increased digital subscriptions and associated revenue. The Company also continues to diversify its revenue base by leveraging the available capacity of its existing assets to provide print and distribution services for newspapers and other customers requiring these services, by introducing new advertising and marketing services products, and by increasing circulation prices.

Because of declining print circulation, the Company has developed broad digital strategies designed to provide readers with multiple platforms for obtaining online access to local news. The Company continues to obtain additional key demographic data from readers, which allows the Company to provide content desired by readers and to modify marketing and distribution strategies to target and reach audiences valued by advertisers. The Company has access to programmatic digital advertising platforms that provide digital ad placement and targeting efficiencies and increases utilization of digital inventory within the Company's websites. Additionally, in order to optimize owned and operated digital advertising revenue, the Company has adopted a holistic yield management approach powered by real-time bidding technologies and data analysis to ensure the optimal mix of direct sales and programmatic ad sales is achieved.

Advertising and marketing services revenue

Advertising and marketing services revenue was 46.2 percent and 47.4 percent of total revenue for 2022 and 2021, respectively.

	Years Ended December 31,		
	2022	Percentage Change	2021
Print advertising	\$ 44,802	(5.6) %	\$ 47,483
Digital advertising and marketing services	24,865	(3.6) %	25,788
Advertising and Marketing Services	\$ 69,667	(4.9) %	\$ 73,271

Print advertising

Print advertising is comprised of display, classified and preprint advertising revenue.

Display and classified print revenue primarily represents sales of advertising space within the Company's core and niche newspapers. As advertisers continue to diversify marketing budgets to incorporate more and varied avenues of reaching consumers, traditional display and classified advertising continues to be impacted. In 2022, display and classified print advertising revenue increased \$646, primarily due to volume increases in display and employment classified advertisements.

Preprint advertising revenue primarily reflects preprinted advertisements inserted into the Company's core newspapers, niche publications, and distributed to publications in other markets, or distributed to non-subscribers through the mail or through third-party distributors to households in targeted areas in order to provide total market coverage for advertisers. Preprint advertising also includes other services revenue related to the Company's niche publications. In 2022, revenue decreased \$3,327, primarily due to a volume decline in preprinted advertisements and reduced advertiser spending. A trend we expect to continue.

Digital advertising and marketing services

Digital advertising and marketing services revenue consists of strategic marketing services, consulting, branding, paid media strategy and management, creative services, search optimization, direct mail and the sale of promotional materials, as well as providing multi-channel marketing solutions through subscription sales of the Company's cloud-based software. In addition, it includes digital sales of banner, classified and native advertisements on the Company's news and entertainment-related websites and mobile apps, as well as targeted and multi-channel (programmatic) advertising placed on third-party websites. In 2022, revenue decreased \$923 due to declines in direct mail, the sale of promotional materials and paid media strategy and management clients, partially offset by an increase in strategic marketing services resulting from the start of new contracts.

Circulation revenue

Circulation revenue was 43.3 percent and 42.1 percent of total revenue for 2022 and 2021, respectively.

	Years Ended December 31,		
	2022	Percentage Change	2021
Print circulation	\$ 52,045	(6.0) %	\$ 55,339
Digital circulation	13,146	36.9 %	9,604
Circulation	\$ 65,191	0.4 %	\$ 64,943

Print circulation

Revenue decreased in 2022, primarily driven by volume declines, partially offset by rate increases. In 2022, home delivery revenue declined \$2,671 or 5.3 percent. The Company ended 2022 with 78,573 print subscriptions, a decrease of 10,698 or 12.0 percent when compared to 89,271 at the end of 2021, while rates increased approximately 8.3 percent. Single copy revenue declined \$623 or 12.9 percent in 2022.

Digital circulation

Revenue increased 36.9 percent in 2022, due to an increase in digital-only subscriptions. The Company ended 2022 with 68,010 digital-only subscriptions, an increase of 8,539 or 14.4 percent when compared to 59,471 at the end of 2021, reflecting the Company's continued focus on growing its paid digital subscriptions and revenue.

Printing, distribution and other revenue

Printing, distribution and other revenue was 10.5 percent and 10.5 percent of total revenue for 2022 and 2021, respectively.

	Years Ended December 31,		
	2022	Percentage Change	2021
Printing, Distribution and Other	\$ 15,793	(2.3)%	\$ 16,160

Revenue decreased in 2022, primarily due to declines in revenue from mailed advertisements for business customers and distribution revenue from commercial printing.

Operating Costs and Expense

The table below sets forth the components of the Company's operating costs and expense.

	Years Ended December 31,		
	2022	Percentage Change	2021
Employee compensation and benefits	\$ 67,096	(2.9)%	\$ 69,078
Other production, distribution and operating costs	78,638	(3.0)%	81,041
Newsprint, ink and other supplies	11,035	11.7 %	9,878
Depreciation	2,709	(32.3)%	4,002
Amortization	—	(100.0)%	64
Loss on sale/disposal of assets, net	58	100.0 %	29
Asset impairments	102	(56.0)%	232
Total Operating Costs and Expense	\$ 159,638	(2.9)%	\$ 164,324

Employee compensation and benefits – The Company continues to implement measures to optimize its workforce and evaluate strategies to reduce risk associated with future obligations for employee benefit plans. Employee compensation and benefits decreased \$1,982 in 2022, primarily due to reductions in variable compensation, severance and medical expense. In 2021, severance expense included \$1,423 related to a voluntary severance offer.

Other production, distribution and operating costs – Expense decreased \$2,403 in 2022, primarily due to savings in distribution expense associated with lower circulation and preprinted advertisements. In addition, advertising and promotional expense decreased related to fewer barter agreements.

Newsprint, ink and other supplies – Expense increased \$1,157 in 2022. Competitive pricing is available under the Company's paper supply agreement; however, the price of newsprint increased, partially offset by savings from reduced newsprint costs associated with lower circulation volumes. Newsprint consumption approximated 7,735 and 8,405 metric tons in 2022 and 2021, respectively, at an average cost per metric ton of \$728 and \$572, respectively.

Depreciation – Expense decreased \$1,293 in 2022, due to a lower depreciable asset base as a higher level of in-service assets are now fully depreciated.

Amortization – Expense decreased in 2022, due to all intangible assets being fully amortized in the first quarter of 2021.

Loss on sale/disposal of assets, net – In 2022 and 2021, the Company disposed assets that were no longer in use, and from time to time, may sell assets.

Asset impairments – In 2022, the Company terminated the lease and sublease agreements for the office space of the Denton Publishing Company, resulting in a right-of-use asset impairment of \$102. In 2021, the Company subleased office space in Dallas, Texas at a lower rate than the head lease, resulting in a right-of-use asset impairment of \$232.

Other

The table below sets forth the other components of the Company's results of operations.

	Years Ended December 31,		
	2022	Percentage Change	2021
Other income (loss), net	\$ (241)	(103.3)%	\$ 7,332
Income tax provision (benefit)	\$ 558	125.9 %	\$ (2,151)

Other income (loss), net – Other income (loss), net includes net periodic pension and other post-employment expense (benefit), interest income (expense) and gain (loss) from investments.

Net periodic pension and other post-employment expense (benefit) was \$910 and \$(4,141) in 2022 and 2021, respectively. For 2022, based on the re-allocation of the Pension Plans' assets, the Company assumed a lower rate of return on the assets resulting in net periodic pension expense.

In 2022 and 2021, the Company recorded \$616 and \$1,008, respectively, of interest income related to the promissory notes from the sale of the Company's former headquarters. In 2021, the Company recorded \$455 of interest income in connection with the accounting for unrecognized tax positions, primarily related to the release of a federal uncertain tax reserve.

In 2021, the Company sold inactive IP addresses for \$1,349.

Income tax provision (benefit) – The income tax provision of \$558 recorded in 2022, was due to the effect of the Texas franchise tax.

An income tax benefit of \$(2,151) was recorded in 2021. The benefit was primarily due to the release of \$2,575, included in other liabilities, for a federal uncertain tax reserve resulting from the statute of limitations lapsing in August 2021, partially offset by the effect of the Texas franchise tax.

Legal proceedings – From time to time, the Company is involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. Management routinely assesses the likelihood of adverse judgments or outcomes in these matters, as well as the ranges of probable losses to the extent losses are reasonably estimable. Accruals for contingencies are recorded when, in the judgment of management, adverse judgments or outcomes are probable and the financial impact, should an adverse outcome occur, is reasonably estimable. The determination of likely outcomes of litigation matters relates to factors that include, but are not limited to, past experience and other evidence, interpretation of relevant laws or regulations and the specifics and status of each matter. Predicting the outcome of claims and litigation and estimating related costs and financial exposure involves substantial uncertainties that could cause actual results to vary materially from estimates and accruals. In the opinion of management, liabilities, if any, arising from other currently existing claims against the Company would not have a material adverse effect on DallasNews' results of operations, liquidity or financial condition.

Critical Accounting Policies and Estimates

DallasNews' consolidated financial statements reflect the application of accounting policies that require management to make significant estimates and assumptions. The Company believes that the following are the critical accounting policies, estimates and assumptions currently affecting DallasNews' financial position and results of operations. See the Notes to the Consolidated Financial Statements, Note 1 – Significant Accounting Policies and Recently Issued Accounting Standards, for additional information concerning significant accounting policies.

Revenue Recognition. The Company's principal sources of revenue are sales of advertising within its newspaper and digital platforms, subscription and retail sales of its newspapers, commercial printing and distribution services, primarily related to national newspapers, and preprint advertising. In addition, revenue includes strategic marketing management, consulting, creative services, targeted and multi-channel (programmatic) advertising placed on third-party websites, social media management, search optimization, direct mail and the sale of promotional materials.

Advertising and Marketing Services

Print advertising is comprised of display, classified and preprint advertising revenue. Display revenue results from sales of advertising space within the Company's core newspapers and niche publications to local, regional or national businesses with local operations, affiliates or resellers.

Classified revenue, which includes automotive, real estate, employment, obituaries and other, results from sales of advertising space in the classified and other sections of the Company's newspapers. Preprint revenue results from sales of preprinted advertisements or circulars inserted into the Company's core newspapers, niche publications, and distributed to publications in other markets, or distributed by mail or through third-party distributors to households in targeted areas in order to provide total market coverage for advertisers. The Company's capabilities allow its advertisers to target preprint distribution selectively at the sub-zip code level in order to optimize coverage for the advertisers' locations. Preprint advertising also includes other services revenue related to the Company's niche publications.

Digital advertising and marketing services revenue consists of strategic marketing services, consulting, branding, paid media strategy and management, creative services, search optimization, direct mail and the sale of promotional materials, as well as providing multi-channel marketing solutions through subscription sales of the Company's cloud-based software. In addition, it includes digital sales of banner, classified and native advertisements on the Company's news and entertainment-related websites and mobile apps, as well as targeted and multi-channel (programmatic) advertising placed on third-party websites.

Advertising and marketing services revenue is primarily recognized at a point in time when the ad or service is complete and delivered, based on the customers' contract price. Barter advertising transactions are recognized at estimated fair value based on the negotiated contract price and the range of prices for similar advertising from customers unrelated to the barter transaction. The Company expenses barter costs as incurred, which is independent from the timing of revenue recognition. In addition, certain digital advertising revenue related to website access is recognized over time, based on the customers' monthly rate.

For ads placed on certain third-party websites, the Company must evaluate and use judgment to determine whether it is acting as the principal, where revenue is reported on a gross basis, or acting as the agent, where revenue is reported on a net basis. Generally, the Company reports advertising revenue for ads placed on third-party websites on a net basis, meaning the amount recorded to revenue is the amount billed to the customer net of amounts paid to the publisher of the third-party website. The Company is acting as the agent because the publisher controls the advertising inventory. The Company will record certain arrangements gross when it has latitude in establishing price or it determines the placement of the ads as a value added service to the customer.

Circulation

Circulation revenue is generated primarily by selling home delivery, including premium publications, and digital subscriptions, as well as single copy sales to non-subscribers for which revenue is recognized at a point in time when the paper is purchased. Home delivery revenue is recognized over the subscription period based on the days of actual delivery over the total subscription days. Revenue is directly reduced for any non-payment for the grace period of home delivery subscriptions where the Company recorded revenue for newspapers delivered after a subscription expired. Digital-only subscription revenue is recognized over the subscription period based on daily or monthly access to the content in the subscription period. Payment of circulation fees is typically received in advance and deferred over the subscription period. There is little judgment required for valuation or timing of circulation revenue recognition.

Printing, Distribution and Other

Printing, distribution and other revenue is primarily generated from printing and distribution of other newspapers, as well as production of preprinted advertisements for other newspapers. Printing, distribution and other revenue is recognized at a point in time when the product or service is delivered, which requires little judgment to determine.

Pension. The Company follows accounting guidance for single-employer defined benefit plans. Plan assets and the projected benefits obligation are measured each December 31, and the Company records as an asset or liability for the net funded position of the plans. Certain changes in actuarial valuations related to returns on plan assets and projected benefit obligations are recorded to accumulated other comprehensive income (loss) and are amortized to net periodic pension expense (benefit) over the weighted average remaining life of plan participants, to the extent the cumulative balance in accumulated other comprehensive income (loss) exceeds 10 percent of the greater of the respective plan's (a) projected benefit obligation or (b) the market-related value of the plan's assets. Net periodic pension expense (benefit) is recognized each period by accruing interest expense on the projected benefit obligation and accruing a return on assets associated with the plan assets. Participation in and accrual of new benefits to participants has been frozen since 2007 and, accordingly, on-going service costs are not a component of net periodic pension expense (benefit). From time to time, the Company-sponsored plans may settle pension obligations with certain plan participants through the plans' master trust as part of its de-risking strategies. The gains or losses associated with settlements of plan obligations to participants are recognized to earnings if such settlements exceed the interest component of net periodic pension cost for the year. Otherwise, such amounts are included in actuarial gains (losses) in accumulated other comprehensive income (loss). Re-measurement of plan assets and liabilities upon a significant settlement or curtailment event is performed based on the values of the month-end closest to the event.

The projected benefit obligations of the DallasNews Pension Plans are estimated using the FTSE Pension Discount Curve, which is based upon a portfolio of high-quality corporate debt securities with maturities that correlate to the expected timing of estimated benefit payments to the Pension Plans' participants. Future estimated benefit payments are discounted to their present value at the appropriate yield curve spot rate to determine the projected benefit obligation outstanding at each year end. The single equivalent discount rate as of December 31, 2022 was 4.9 percent and 2.5 percent for December 31, 2021. The significant gains related to changes in the projected benefit obligation for 2022 and 2021, were primarily due to the movement in the discount rate.

Interest expense included in net periodic pension benefit is based on the FTSE Pension Discount Curve established at the beginning of the fiscal year. The discount rate for fiscal year 2022 and 2021 interest cost was 2.5 percent and 2.1 percent, respectively.

The Company assumed a 2.5 percent and 5.5 percent long-term return on the Pension Plans' assets in 2022 and 2021, respectively. This return is based upon historical returns of similar investment pools having asset allocations consistent with the expected allocations of the DallasNews Pension Plans. Investment strategies for the Pension Plans' assets are based upon factors such as the effective duration of the actuarial liabilities and market risks.

Recent Accounting Standards

See the Notes to the Consolidated Financial Statements, Note 1 - Significant Accounting Policies and Recently Issued Accounting Standards, regarding the impact of certain recent accounting pronouncements.

Liquidity and Capital Resources

The Company's cash balances as of December 31, 2022 and 2021, were \$27,825 and \$32,439, respectively. The decrease in the cash balance during 2022 was primarily due to the return of capital to shareholders through dividends, a board approved voluntary contribution to the Pension Plans and the net loss from operations.

The Company intends to hold the majority of existing cash for purposes of future investment opportunities, potential return of capital to shareholders and for contingency purposes. Although revenue is expected to continue to decline in future periods, cash flows and other expense reduction measures are expected to be sufficient to fund operating activities and capital spending.

The future approval of dividends is dependent upon available cash after considering future operating and investing requirements and cannot be guaranteed. The Company continues to have a board-authorized repurchase authority. However, the agreement to repurchase the Company's stock expired and was not renewed.

The American Rescue Plan Act of 2021 (the “ARP Act”) was passed and signed into law on March 11, 2021, and was designed to speed up the United States’ economic recovery. The ARP Act contains many provisions, including direct cash payments to eligible taxpayers below specified income limits, extended unemployment insurance benefits, additional relief designed to prevent layoffs and business closures at small businesses, and pension relief provisions. The pension relief provisions include extending the interest rate relief passed in previous years, permanently adding a floor to funding interest rates, and permanently changing the amortization period for pension underfunding from 7 to 15 years. All provisions are required to be effective for plan years beginning in 2022, but plan sponsors can elect certain provisions to apply to plan years beginning as early as 2019. The Company benefited from the shortfall amortization relief provisions and the segment interest rate relief provisions contained in the ARP Act effective for the 2020 plan year.

Effective June 30, 2022, the Company and Charter DMN Holdings, LP (the “Purchaser”) entered into an agreement (the “Third Modification Agreement”) extending the maturity date of the promissory note of \$22,400 (the “Promissory Note”), for the sale of the real estate assets previously used as the Company’s headquarters, to July 29, 2022. The unpaid, original principal balance of the Promissory Note accrued interest at the rate of 6.5 percent. On July 29, 2022, the Company was paid in full, receiving cash proceeds of \$22,516, including interest, due from the Purchaser under the Third Modification Agreement.

The following discusses the changes in cash flows by operating, investing and financing activities in 2022 and 2021.

Operating Cash Flows

Net cash used for operating activities was \$13,933 and \$5,760 in 2022 and 2021, respectively.

Cash flows used for operating activities increased by \$8,173 in 2022, when compared to the prior year period, primarily due to the board approved voluntary contribution of \$5,000 to the Pension Plans made in the third quarter of 2022 and the net loss from operations.

Investing Cash Flows

Net cash provided by (used for) investing activities was \$20,773 and \$(390) in 2022 and 2021, respectively.

Cash flows from investing activities increased in 2022 due to cash proceeds of \$22,400, received in the third quarter of 2022, due under the Third Modification Agreement as discussed above. Cash flows from investing activities also included \$1,627 and \$767 of capital spending in 2022 and 2021, respectively.

Financing Cash Flows

Net cash used for financing activities was \$11,454 and \$3,426 in 2022 and 2021, respectively, primarily attributable to dividend payments. On August 22, 2022, the Company’s board of directors declared a special, one-time \$1.50 per share dividend to shareholders of record as of the close of business on September 9, 2022, which was paid on September 30, 2022, returning \$8,029 to shareholders.

Financing Arrangements

None.

Contractual Obligations

As of December 31, 2022, the Company had contractual obligations, in aggregate, of \$12,283 for the next five years and \$14,342 thereafter, for operating leases, primarily for office space and other distribution centers, some of which include escalating lease payments. See Note 3 – Leases for future lease payments by year.

In December 2016, the Dallas Morning News, Inc., a wholly-owned subsidiary of the Company, entered into a 16-year lease agreement for office space for the Company's new corporate headquarters. The Company recognizes rent expense on a straight-line basis. Per the amended lease agreement, rent payments began in November 2018.

The Company currently does not expect to make contributions to the DallasNews Pension Plans in 2023 and no contributions are required to these plans in 2023 under the applicable tax and labor laws governing pension plan funding.

On December 1, 2022, the Company's board of directors declared a \$0.16 per share dividend to shareholders of record as of the close of business on February 10, 2023, paid on March 3, 2023. On March 9, 2023, the Company's board of directors declared a \$0.16 per share dividend to shareholders of record as of the close of business on May 12, 2023, which is payable on June 2, 2023.

Item 8. Financial Statements and Supplementary Data

The consolidated financial statements, together with the Report of Independent Registered Public Accounting Firms, are included herein starting on page 26 of this Annual Report on Form 10-K.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

Item 9A. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, are controls that are designed to ensure that information required to be disclosed by the Company in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including the Company's Chief Executive Officer and Principal Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing disclosure controls and procedures, management is required to apply its judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures. The design of any disclosure controls and procedures is also based, in part, upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

The Company's management, with the participation of its Chief Executive Officer and Principal Financial Officer, evaluated the effectiveness of the design and operation of its disclosure controls and procedures as of December 31, 2022. Based on that evaluation, management concluded that, as of such date, the Company's disclosure controls and procedures were effective.

Management's Report on Internal Control Over Financial Reporting

The management of DallasNews is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rule 13a-15(f) under the Exchange Act. The Company's internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Under the supervision and with the participation of management, including the Chief Executive Officer and Principal Financial Officer, an assessment of the effectiveness of internal control over financial reporting was conducted as of December 31, 2022. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control – Integrated Framework (2013). Based on this assessment using the criteria set forth by COSO in Internal Control – Integrated Framework (2013), management concluded that the Company's internal control over financial reporting was effective as of December 31, 2022.

Changes in Internal Control Over Financial Reporting

There have been no changes in the Company's internal control over financial reporting that occurred during the fourth fiscal quarter ended December 31, 2022, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART III

Item 10. Directors, Executive Officers and Corporate Governance

The information set forth under the headings “DallasNews Corporation Stock Ownership,” “Proposal One: Election of Directors,” “Corporate Governance – Committees of the Board – *Audit Committee*,” “Corporate Governance – Committees of the Board – *Nominating and Corporate Governance Committee*,” and “Information About Our Executive Officers” contained in the definitive Proxy Statement for the Company’s Annual Meeting of Shareholders to be held on May 11, 2023, is incorporated herein by reference.

DallasNews has adopted a Code of Business Conduct and Ethics that applies to all directors, officers and employees, which can be found at the Company’s website, dallasnewscorporation.com. The Company will post any amendments to the Code of Business Conduct and Ethics, as well as any waivers that are required to be disclosed by the rules of either the SEC or The Nasdaq Stock Market LLC, on the Company’s website. Information on DallasNews’ website is not incorporated by reference into this Annual Report on Form 10-K.

The Company’s board of directors adopted Corporate Governance Guidelines and charters for the Audit, Compensation and Management Development, and Nominating and Corporate Governance Committees of the Board of Directors. These documents can be found at the Company’s website, dallasnewscorporation.com.

Shareholders can also obtain, without charge, printed copies of any of the materials referred to above by contacting the Company at the following address:

DallasNews Corporation
P. O. Box 224866
Dallas, Texas 75222-4866
Attn: Investor Relations
Telephone: (214) 977-8869

Item 11. Executive Compensation

The information set forth under the headings “Corporate Governance – Committees of the Board – *Compensation and Management Development Committee*,” “Executive Compensation – Summary Compensation Table, – Change in Control Arrangements and Other Agreements Upon Termination of Employment, – Potential Payments on Change in Control or Upon Termination of Employment at December 31, 2022,” “Corporate Governance – “Director Compensation” contained in the definitive Proxy Statement for the Company’s Annual Meeting of Shareholders to be held on May 11, 2023, is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The information set forth under the headings “DallasNews Corporation Stock Ownership of Directors and Executive Officers” and “Equity Compensation Plan Information” contained in the definitive Proxy Statement for the Company’s Annual Meeting of Shareholders to be held on May 11, 2023, is incorporated herein by reference.

Information regarding the number of shares of common stock authorized for issuance under the Company’s equity compensation plans is included in the Notes to the Consolidated Financial Statements, Note 1 – Significant Accounting Policies and Recently Issued Accounting Standards.

Item 13. Certain Relationships and Related Transactions, and Director Independence

The information set forth under the heading “Certain Relationships and Related Party Transactions” and “Corporate Governance – Director Independence” contained in the definitive Proxy Statement for the Company’s Annual Meeting of Shareholders to be held on May 11, 2023, is incorporated herein by reference.

Item 14. Principal Accountant Fees and Services

The information set forth under the heading “Proposal Two: Ratification of the Appointment of Independent Registered Public Accounting Firm” contained in the definitive Proxy Statement for the Company’s Annual Meeting of Shareholders to be held on May 11, 2023, is incorporated herein by reference.

PART IV

Item 15. Exhibits, Financial Statement Schedules

- (1) The consolidated financial statements listed in the Index to Consolidated Financial Statements included in the table of contents are filed as part of this report.
- (2) All financial statement schedules were omitted because they are not applicable, are not required, or the required information is shown in the consolidated financial statements or notes thereto.
- (3) Exhibits:

Exhibits marked with an asterisk (*) are incorporated by reference to documents previously filed by the Company with the SEC, as indicated. In accordance with Regulation S-T, the XBRL-related information marked with a double asterisk (**) in Exhibit No. 101 to this Annual Report on Form 10-K is deemed filed. All other documents are filed with this report. Exhibits marked with a tilde (~) are management contracts, compensatory plan contracts or arrangements filed pursuant to Item 601(b)(10)(iii)(A) of Regulation S-K.

Report of Independent Registered Public Accounting Firm

Board of Directors and Shareholders
DallasNews Corporation

Opinion on the financial statements

We have audited the accompanying consolidated balance sheets of DallasNews Corporation (formerly known as A. H. Belo Corporation) (a Texas corporation) and subsidiaries (the “Company”) as of December 31, 2022 and 2021, the related consolidated statements of operations, comprehensive income (loss), shareholders’ equity, and cash flows for each of the two years in the period ended December 31, 2022, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2022 and 2021, and the results of its operations and its cash flows for each of the two years in the period ended December 31, 2022, in conformity with accounting principles generally accepted in the United States of America.

Basis for opinion

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Critical audit matters

Critical audit matters are matters arising from the current period audit of the consolidated financial statements that were communicated or required to be communicated to the audit committee and that: (1) relate to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. We determined that there are no critical audit matters.

/s/ GRANT THORNTON LLP

We have served as the Company’s auditor since 2018.

DallasNews Corporation and Subsidiaries
Notes to the Consolidated Financial Statements

Note 1: Significant Accounting Policies and Recently Issued Accounting Standards

Description of Business. DallasNews Corporation, formerly A. H. Belo Corporation, and its subsidiaries are referred to collectively herein as “DallasNews” or the “Company.” DallasNews was formed in February 2008 through a spin-off from its former parent company and is registered on The Nasdaq Stock Market LLC (Nasdaq trading symbol: DALN). DallasNews is the Dallas-based holding company of *The Dallas Morning News* and Medium Giant.

The Company operates *The Dallas Morning News* (dallasnews.com), Texas’ leading newspaper and winner of nine Pulitzer Prizes, and various niche publications targeting specific audiences. These operations generate revenue from sales of advertising within the Company’s newspaper and digital platforms, subscriptions and retail sales of its newspapers, commercial printing and distribution services primarily related to national newspapers, and preprint advertising.

In addition, the Company has a full-service agency, Medium Giant, with capabilities including strategy, creative and media management with a focus on strategic and digital marketing, and data intelligence that provide a measurable return on investment to its clients.

Employees. As of December 31, 2022, the Company had 663 employees of which approximately 21 percent were represented by a labor union. The Company is in the process of finalizing an initial collective bargaining agreement. While there have not been any operational disruptions to date, the Company cannot predict the timing or outcome of these negotiations.

Name Change and Stock Exchange Listing. The Company transferred its stock exchange listing from the New York Stock Exchange (“NYSE”) to The Nasdaq Stock Market LLC (“Nasdaq”) and changed its corporate name to DallasNews Corporation. The listing and trading of the Company’s Series A common stock on the NYSE ceased trading at market close on June 28, 2021, and began trading on Nasdaq at market open on June 29, 2021, under the ticker symbol “DALN.”

Reverse Stock Split. In May, 2021, at the Company’s 2021 annual meeting of shareholders, its shareholders approved a reverse stock split at a ratio of not less than one-for-three and not more than one-for-five, with the exact ratio to be determined by the Company’s board of directors. Following the annual meeting, the Company’s board of directors approved a one-for-four reverse stock split of its issued, outstanding and treasury shares of common stock, par value \$0.01 per share, which became effective June 8, 2021. As a result, every four shares of the Company’s issued and outstanding Series A common stock and Series B common stock (and any such shares held in treasury) were converted into one share of Series A common stock and Series B common stock, respectively. All fractional shares were settled in cash, in connection with the reverse stock split, on June 9, 2021. The par value of the Series A and Series B common stock was not adjusted as a result of the reverse stock split and the Company reclassified an amount equal to the reduction in the number of Company shares at par value to additional paid-in capital.

COVID-19 Pandemic. Beginning in early 2020, the COVID-19 pandemic impacted, and may continue to impact, the Company’s customers, distribution partners, advertisers, production facilities, and third parties, and could result in additional loss of advertising revenue or supply chain disruption. If the pandemic were to affect a significant number of the workforce employed in printing operations, the Company may experience delays or be unable to produce, print and deliver its publications and other third-party print publications on a timely basis. The Company continues to evaluate for any future material impacts on its consolidated financial statements.

Basis of Presentation. The consolidated financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) and include the accounts of the Company and its majority owned subsidiaries over which the Company exercises control. All intercompany balances and transactions have been eliminated in consolidation. All dollar amounts presented herein, except share and per share amounts, are in thousands, unless the context indicates otherwise.

Use of Estimates. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect (i) the reported amounts of assets and liabilities, (ii) the disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and (iii) the reported amount of net operating revenues and expenses recognized during the periods presented. Adjustments made with respect to the use of estimates often relate to improved information not previously available. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of financial statements; accordingly, actual results could differ from these estimates.

Areas where estimates are used include valuation allowances for doubtful accounts, fair value measurements, pension plan assets, pension and other post-employment benefit obligation assumptions, income taxes, leases, self-insured liabilities, and assumptions related to long-lived assets impairment review. Estimates are based on past experience and other considerations reasonable under the circumstances. Actual results may differ from these estimates.

Segment Presentation. Based on the Company’s structure and organizational chart, the Company’s chief operating decision-maker (the “CODM”) is its Chief Executive Officer, Grant S. Moise. Based on how the Company’s CODM makes decisions about allocating resources and assessing performance, the Company determined it has one reportable segment.

Cash and Cash Equivalents. The Company considers all highly liquid instruments purchased with original maturities of three months or less to be cash equivalents. The Company places its cash and cash equivalents with high credit quality institutions. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash and cash equivalents.

Accounts Receivable. Accounts receivable are reported net of a valuation reserve that represents an estimate of amounts considered uncollectible. The Company estimates the allowance for doubtful accounts based on historical write-off experience and the Company’s knowledge of the customers’ ability to pay amounts due. Accounts are written-off after all collection efforts fail; generally, after one year has expired. Expense for such uncollectible amounts is included in other production, distribution and operating costs. Credit terms are customary. Bad debt expense for 2022 and 2021 was \$307 and \$184, respectively. Write-offs, net of recoveries and other adjustments for 2022 and 2021 were \$367 and \$345, respectively.

Risk Concentration. A significant portion of the Company’s customer base is concentrated within the North Texas geographical area. The Company generally extends credit to customers, and the ultimate collection of accounts receivable could be affected by the national and local economy, which has been impacted by the pandemic. Management continually performs credit evaluations of its customers and may require cash in advance or other special arrangements from certain customers. The Company maintains an allowance for losses based upon the collectability of accounts receivable. Management does not believe significant credit risk exists that could have a material adverse effect on the Company’s consolidated financial condition, liquidity or results of operations.

Notes Receivable. Notes receivable are related to the financed portion of the sale of the Company’s former headquarters, which was paid in full in the third quarter of 2022; see Note 10 – Disposal of Assets. Notes receivable are recorded net of an allowance for doubtful accounts. Interest income is accrued on the unpaid principal balance, included in accounts receivable in the Consolidated Balance Sheets. The Company puts notes receivable on non-accrual status and provides an allowance against accrued interest if it is determined the likelihood of collecting substantially all of the note and accrued interest is not probable. Notes are written-off against the allowance when all possible means of collection have been exhausted and the potential for recovery is considered remote. As of December 31, 2021, there was no allowance recorded for the notes receivable or accrued interest receivable.

Inventories. Inventories, consisting primarily of newsprint, ink and other supplies used in printing newspapers, are recorded at the lower of cost or net realizable value. Cost is determined by the weighted average purchase price of the inventory acquired.

Property, Plant and Equipment. The Company records property, plant and equipment at cost or its fair value if acquired through a business acquisition or non-monetary exchange. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets and depreciable assets are reviewed to ensure the remaining useful life of the assets continues to be appropriate. An adjustment resulting from a change in the estimated useful life of an asset is recorded to depreciation expense on a prospective basis.

The table below sets forth property, plant and equipment by type.

	<i>December 31,</i>		Estimated Useful Lives
	<i>2022</i>	<i>2021</i>	
Land	\$ 1,971	\$ 1,971	
Buildings and improvements	85,714	85,400	5 - 30 years
Publishing equipment	173,646	173,123	3 - 20 years
Other	51,336	51,744	3 - 10 years
Construction in process	773	741	
Total	313,440	312,979	
Less accumulated depreciation	(306,002)	(304,157)	
Property, plant and equipment, net	\$ 7,438	\$ 8,822	

Long-Lived Assets. The Company evaluates its ability to recover the carrying value of property, plant and equipment and finite-lived intangible assets, using the lowest level of separately identifiable cash flows associated with the assets, which are grouped based on the Company’s intended use of these assets. This evaluation is performed whenever a change in circumstances indicates that the carrying value of an asset group may not be recoverable. If the analysis of undiscounted future cash flows indicates the carrying value of the long-lived assets cannot be recovered, the assets are adjusted to the lower of its carrying value or fair value.

During the year ended December 31, 2022, the Company performed a review of potential impairment indicators for its long-lived assets, including property, plant and equipment, and right-of-use assets. The Company determined there was no significant decrease in the market value of the long-lived assets or significant change in the extent or manner in which the asset group is being used or in its physical condition as of December 31, 2022, and there was no significant adverse change in legal factors or in the business climate during the period that could affect the value of the asset group. Based upon the review of indicators, the Company did not identify any events or changes in circumstances that indicate the carrying amount of long-lived assets may not be recoverable. See Note 3 – Leases for information on right-of-use asset impairments occurring in 2022 and 2021.

Investments. The Company owns certain equity securities in companies in which it does not exercise control. These investments are recorded under the cost method with a balance of \$1,432 at December 31, 2022 and 2021, and the Company recognizes income or loss upon the receipt of dividends or distributions, or upon liquidation of the investment. The Company evaluates its ability to recover the carrying value of cost method investments based upon operating results and the financial strength of the investee. If the Company determines the carrying value is not recoverable, an impairment charge is recorded for the difference between the fair value of the investment and the carrying value.

Pension. The Company follows accounting guidance for single-employer defined benefit plans. Plan assets and the projected benefit obligation are measured each December 31, and the Company records as an asset or liability the net funded position of the plans. Certain changes in actuarial valuations related to returns on plan assets and projected benefit obligations are recorded to accumulated other comprehensive income (loss) and are amortized to net periodic pension expense (benefit) over the weighted average remaining life of plan participants, to the extent the cumulative balance in accumulated other comprehensive income (loss) exceeds 10 percent of the greater of the respective plan's (a) projected benefit obligation or (b) the market-related value of the plan's assets. Net periodic pension expense (benefit) is recognized each period by accruing interest expense on the projected benefit obligation and accruing a return on assets associated with the plan assets. Participation in and accrual of new benefits to participants has been frozen since 2007 and, accordingly, on-going service costs are not a component of net periodic pension expense (benefit). From time to time, the Company-sponsored plans may settle pension obligations with certain plan participants through the plans' master trust as part of its de-risking strategies. The gains or losses associated with settlements of plan obligations to participants are recognized to earnings if such settlements exceed the interest component of net periodic pension cost for the year. Otherwise, such amounts are included in actuarial gains (losses) in accumulated other comprehensive income (loss). Re-measurement of plan assets and liabilities upon a significant settlement or curtailment event is performed based on the values of the month-end closest to the event.

Long-Term Incentive Plan. The Company sponsored a long-term incentive plan (the "Plan") under which it issued restricted stock units ("RSUs") and cash awards to directors and certain employees of the Company. Due to the expiration of the Plan in February 2018, DallasNews implemented, and shareholders approved, a new long-term incentive plan (the "2017 Plan") under which 1,000,000 shares of the Company's Series A and Series B common stock are authorized and remain available for equity-based awards. The authorized shares were adjusted in connection with the reverse stock split on June 8, 2021, discussed above. Like its predecessor plan, awards under the 2017 Plan may be granted to DallasNews employees and outside directors in the form of non-qualified stock options, incentive stock options, restricted share awards, RSUs, performance shares, performance units or stock appreciation rights.

As of December 31, 2022 and 2021, there were no stock-based awards outstanding.

Shareholders' Equity. The Company authorized the issuance of shares of Series A and Series B common stock. Series A common stock has one vote per share and Series B common stock has 10 votes per share. Shares of Series B common stock are convertible at any time on a share-for-share basis into shares of Series A common stock, but not vice versa.

The Company is authorized to grant stock option and RSU awards to employees and directors of the Company. Upon vesting of RSUs, shares of Series A common stock are issued. Upon the exercise of stock options, Series A common stock is issued if the holder of the stock options executes a simultaneous exercise and sale. If the holder of the stock option chooses not to sell the shares, Series B common stock is issued.

In 2012, the Company's board of directors authorized the purchase of the DallasNews Series A or Series B common stock, for use other than retirement, through open market purchases, privately negotiated transactions or otherwise. Treasury stock acquired under the repurchase program is recorded at cost, reducing shareholders' equity. The acquired shares are available for sale on the open market or for settlement of obligations related to future stock-based awards, if granted.

Accumulated other comprehensive loss consists of actuarial gains and losses associated with the DallasNews Pension Plans (the "Pension Plans"), formerly the A. H. Belo Pension Plans, and other post-employment benefit (the "OPEB") plans. The cumulative balances are amortized to earnings over the weighted average remaining life expectancy of the participants to the extent such balances exceed 10 percent of the greater of the respective plan's (a) projected benefit obligation or (b) the market-related value of the plan's assets. The Company discloses amounts reclassified from accumulated other comprehensive loss to net income (loss) in Note 6 - Shareholders' Equity.

Revenue Recognition. The Company's principal sources of revenue are sales of advertising within its newspaper and digital platforms, subscription and retail sales of its newspapers, commercial printing and distribution services, primarily related to national newspapers, and preprint advertising. In addition, revenue includes strategic marketing management, consulting, creative services, targeted and multi-channel (programmatic) advertising placed on third-party websites, social media management, search optimization, direct mail and the sale of promotional materials.

Revenue is recognized when obligations under the terms of a contract with our customer are satisfied. This occurs when control of the promised goods or services is transferred to our customers, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services, typically at contract price or determined by stand-alone selling price. The Company has an estimated allowance for credits, refunds and similar obligations. Sales tax collected concurrent with revenue-producing activities are excluded from revenue. See Note 2 – Revenue for disaggregated revenue by source and additional information.

Leases. The Company determines if a contract is a lease at the inception of the arrangement. Operating lease right-of-use assets and liabilities are recognized at commencement date of lease agreements greater than one year based on the present value of lease payments over the lease term. In determining the present value of lease payments, the implicit rate was not readily determinable in the Company's lease agreements. Therefore, the Company used an estimated secured incremental borrowing rate, based on the Company's credit rating, adjusted for the weighted average term of each lease. Lease expense is recognized on a straight-line basis over the lease term and variable lease costs are expensed as incurred. For leases with terms of 12 months or less, no asset or liability is recorded and lease expense is recognized on a straight-line basis over the lease term. The exercise of lease renewal options are at the Company's sole discretion and options are recognized when it is reasonably certain the Company will exercise the option. The recognized right-of-use assets and lease liabilities as calculated do not assume renewal options. The Company does not have lease agreements with residual value guarantees, sale leaseback terms or material restrictive covenants. Additionally, the Company does not separately identify lease and nonlease components, such as maintenance costs.

Income Taxes. The Company uses the asset and liability method of accounting for income taxes and recognizes deferred tax assets and liabilities based on the difference between the financial statement and tax basis of assets and liabilities using enacted tax rates. The Company establishes a valuation allowance if it is more-likely-than-not that the deferred tax assets will not be realized. The factors used to assess the likelihood of realization of the deferred tax assets include future reversal of deferred tax liabilities, available tax planning strategies, future taxable income and taxable income in prior carryback years.

The Company evaluates any uncertain tax positions each reporting period by tax jurisdiction to determine if it is more-likely-than-not that the tax position will not be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements for such positions are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. If a net operating loss or other tax credit carry forward exists, the Company records the unrecognized tax benefits for such tax positions as a reduction to a deferred tax asset. Otherwise, the unrecognized tax benefits are recorded as a liability. The Company records a liability for uncertain tax positions taken or expected to be taken in a tax return. Any change in judgment related to the expected ultimate resolution of uncertain tax positions is recognized in earnings in the period in which such change occurs. Interest and penalties, if any, related to unrecognized tax benefits are recorded in other income (loss), net.

Fair Value Measurements. The Company's financial instruments, including cash, cash equivalents, accounts receivable, interest receivable, accounts payable and amounts due to customers are carried at cost, which approximates its fair value because of the short-term nature of these instruments.

New Accounting Pronouncements. The Financial Accounting Standards Board ("FASB") issued the following accounting pronouncements and guidance, which may be applicable to the Company but have not yet become effective.

In June 2016, the FASB issued Accounting Standards Update ("ASU") 2016-13 – *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. This update requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectibility of the reported amount. Since June 2016, the FASB issued clarifying updates to the new standard including changing the effective date for smaller reporting companies. The guidance will be effective for fiscal years beginning after December 15, 2022, and interim periods within those fiscal years. Early adoption is permitted. The Company will adopt this ASU on January 1, 2023, using the modified retrospective approach and does not expect a material impact on its consolidated financial statements.

Note 2: Revenue

The table below sets forth revenue disaggregated by revenue source.

	Years Ended December 31,	
	2022	2021
Advertising and Marketing Services		
Print advertising	\$ 44,802	\$ 47,483
Digital advertising and marketing services	24,865	25,788
Total	\$ 69,667	\$ 73,271
Circulation		
Print circulation	\$ 52,045	\$ 55,339
Digital circulation	13,146	9,604
Total	\$ 65,191	\$ 64,943
Printing, Distribution and Other	\$ 15,793	\$ 16,160
Total Revenue	\$ 150,651	\$ 154,374

Advertising and Marketing Services

Print advertising is comprised of display, classified and preprint advertising revenue. Display revenue results from sales of advertising space within the Company's core newspapers and niche publications to local, regional or national businesses with local operations, affiliates or resellers. Classified revenue, which includes automotive, real estate, employment, obituaries and other, results from sales of advertising space in the classified and other sections of the Company's newspapers. Preprint revenue results from sales of preprinted advertisements or circulars inserted into the Company's core newspapers, niche publications, and distributed to publications in other markets, or distributed by mail or through third-party distributors to households in targeted areas in order to provide total market coverage for advertisers. The Company's capabilities allow its advertisers to target preprint distribution selectively at the sub-zip code level in order to optimize coverage for the advertisers' locations. Preprint advertising also includes other services revenue related to the Company's niche publications.

Digital advertising and marketing services revenue consists of strategic marketing services, consulting, branding, paid media strategy and management, creative services, search optimization, direct mail and the sale of promotional materials, as well as providing multi-channel marketing solutions through subscription sales of the Company's cloud-based software. In addition, it includes digital sales of banner, classified and native advertisements on the Company's news and entertainment-related websites and mobile apps, as well as targeted and multi-channel (programmatic) advertising placed on third-party websites.

Advertising and marketing services revenue is primarily recognized at a point in time when the ad or service is complete and delivered, based on the customers' contract price. Barter advertising transactions are recognized at estimated fair value based on the negotiated contract price and the range of prices for similar advertising from customers unrelated to the barter transaction. The Company expenses barter costs as incurred, which is independent from the timing of revenue recognition. In addition, certain digital advertising revenue related to website access is recognized over time, based on the customers' monthly rate. The Company typically extends credit to advertising and marketing services customers, although for certain advertising campaigns the customer may pay in advance.

For ads placed on certain third-party websites, the Company must evaluate and use judgment to determine whether it is acting as the principal, where revenue is reported on a gross basis, or acting as the agent, where revenue is reported on a net basis. Generally, the Company reports advertising revenue for ads placed on third-party websites on a net basis, meaning the amount recorded to revenue is the amount billed to the customer net of amounts paid to the publisher of the third-party website. The Company is acting as the agent because the publisher controls the advertising inventory. The Company will record certain arrangements gross when it has latitude in establishing price or it determines the placement of the ads as a value added service to the customer.

Circulation

Print circulation revenue is generated primarily by selling home delivery subscriptions, including premium publications, and from single copy sales to non-subscribers. Home delivery revenue is recognized over the subscription period based on the days of actual delivery over the total subscription days and single copy revenue is recognized at a point in time when the paper is purchased. Revenue is directly reduced for any non-payment for the grace period of home delivery subscriptions where the Company recorded revenue for newspapers delivered after a subscription expired.

Digital circulation revenue is generated by digital-only subscriptions and is recognized over the subscription period based on daily or monthly access to the content in the subscription period.

Payment of circulation fees is typically received in advance and deferred over the subscription period. There is little judgment required for valuation or timing of circulation revenue recognition.

Printing, Distribution and Other

Printing, distribution and other revenue is primarily generated from printing and distribution of other newspapers, as well as production of preprinted advertisements for other newspapers. Printing, distribution and other revenue is recognized at a point in time when the product or service is delivered, which requires little judgment to determine. The Company typically extends credit to printing and distribution customers.

Deferred Revenue

Deferred revenue is recorded when cash payments are received in advance of the Company's performance, including amounts which are refundable. The Company's primary sources of deferred revenue are from circulation subscriptions and advertising paid in advance of the service provided. These up-front payments are recorded upon receipt as contract liabilities in the Consolidated Balance Sheets and the revenue is recognized when the Company's obligations under the terms of the contract are satisfied. In the year ended December 31, 2022, the Company recognized \$10,027 of revenue that was included in the contract liabilities balance as of December 31, 2021. The Company typically recognizes deferred revenue within 1 to 12 months.

Practical Expedients and Exemptions

The Company generally expenses sales commissions and circulation acquisition costs when incurred because the amortization period would have been one year or less. These costs are recorded within employee compensation and benefits expense and other production, distribution and operating costs expense, respectively.

The Company does not disclose the value of unsatisfied performance obligations for contracts with an original expected length of one year or less and contracts for which revenue is recognized at the amount invoiced for services performed.

Note 3: Leases

The Company has various operating leases primarily for office space and other distribution centers, some of which include escalating lease payments and options to extend or terminate the lease. The Company's leases have remaining terms of less than 1 year to 11 years.

The Company subleases office space in Dallas, Texas, with a remaining lease term of approximately one year. Additionally, the Company has various subleases with distributors, for distribution center space, with varying remaining lease terms of less than one year to two years and are cancellable with notice by either party. The Company terminated the lease and sublease agreements for the office space of the Denton Publishing Company, resulting in a right-of-use asset impairment of \$102 recorded in the second quarter of 2022. In 2021, the Company subleased office space in Dallas, Texas at a lower rate than the head lease, resulting in a right-of-use asset impairment of \$232. Sublease income is included in printing, distribution and other revenue in the Consolidated Statements of Operations. As of December 31, 2022, sublease income is expected to approximate \$710 in 2023 and \$5 in 2024.

As of December 31, 2022, the Company renewed three operating leases with lease terms of three years, which will result in a right-of-use asset and lease liability of approximately \$810 in aggregate upon commencement in the first quarter of 2023. In addition, the Company renewed an operating lease with a lease term of three years, which will result in a right-of-use asset and lease liability of approximately \$1,861 upon commencement in the second quarter of 2023.

The table below sets forth supplemental Consolidated Balance Sheet information for the Company's leases.

	Classification	December 31, 2022		December 31, 2021	
Assets					
Operating	Operating lease right-of-use assets	\$	14,811	\$	17,648
Liabilities					
Operating					
Current	Other accrued expense	\$	1,547	\$	2,430
Noncurrent	Long-term operating lease liabilities		16,546		19,181
Total lease liabilities		\$	18,093	\$	21,611

Lease Term and Discount Rate

Operating leases		
Weighted average remaining lease term (years)	10.1	10.2
Weighted average discount rate (%)	7.7	7.5

The table below sets forth components of lease cost and supplemental cash flow information for the Company's leases.

	Years Ended December 31,	
	2022	2021
Lease Cost		
Operating lease cost	\$ 4,088	\$ 4,292
Short-term lease cost	63	20
Variable lease cost	645	706
Sublease income	(1,155)	(1,071)
Total lease cost	\$ 3,641	\$ 3,947
Supplemental Cash Flow Information		
Cash paid for operating leases included in operating activities	\$ 4,212	\$ 4,337
Right-of-use assets obtained in exchange for operating lease liabilities	424	90

The table below sets forth the remaining maturities of the Company's lease liabilities as of December 31, 2022.

Years Ending December 31,	Operating Leases
2023	\$ 2,877
2024	2,348
2025	2,315
2026	2,366
2027	2,377
Thereafter	14,342
Total lease payments	26,625
Less: imputed interest	8,532
Total lease liabilities	\$ 18,093

Note 4: Income Taxes

The table below sets forth the Company's income tax provision (benefit).

	<i>Years Ended December 31,</i>	
	<i>2022</i>	<i>2021</i>
Current		
Federal	\$ —	\$ (2,575)
State	583	604

Income tax provision (benefit)	<u>\$ 558</u>	<u>\$ (2,151)</u>
Effective income tax rate	<u>(6.0)%</u>	<u>82.2%</u>

The income tax provision of \$558 recorded in 2022, was due to the effect of the Texas franchise tax.

An income tax benefit of \$(2,151) was recorded in 2021. The benefit was primarily due to the release of \$2,575, included in other liabilities, for a federal uncertain tax reserve resulting from the statute of limitations lapsing in August 2021, partially offset by the effect of the Texas franchise tax.

The Company made income tax payments, net of refunds, of \$619 and \$666 in 2022 and 2021, respectively.

The American Rescue Plan Act of 2021 (the "ARP Act"), was passed and signed into law on March 11, 2021, and was designed to speed up the United States' economic recovery. The ARP Act contains many provisions, including direct cash payments to eligible taxpayers below specified income limits, extended unemployment insurance benefits, additional relief designed to prevent layoffs and business closures at small businesses, and pension relief provisions. The pension relief provisions include extending the interest rate relief passed in previous years, permanently adding a floor to funding interest rates, and permanently changing the amortization period for pension underfunding from 7 to 15 years. All provisions are required to be effective for plan years beginning in 2022, but plan sponsors can elect certain provisions to apply to plan years beginning as early as 2019. The Company benefited from the shortfall amortization relief provisions and the segment interest rate relief provisions contained in the ARP Act effective for the 2020 plan year.

On August 16, 2022, the Inflation Reduction Act (the "Act") was enacted and signed into law. The Act is a budget reconciliation package that includes significant law changes relating to tax, climate change, energy, and health care. The tax provisions include, among other items, a corporate alternative minimum tax of 15 percent, an excise tax of 1 percent on corporate stock buy-backs, energy-related tax credits, and additional IRS funding. Certain provisions, including the corporate alternative minimum tax and excise tax on corporate stock buy-backs, do not become effective until tax years beginning after December 31, 2022. The U.S. Department of the Treasury and the IRS are expected to release further regulations and interpretive guidance implementing the legislation contained in the Act, but the details and timing of such regulations are subject to uncertainty at this time. The Company continues to evaluate the impacts of this legislation as additional guidance is released; however, it does not expect a material impact on its consolidated financial statements.

The table below sets forth the significant components of the Company's deferred tax assets and liabilities.

	<i>December 31,</i>	
	<i>2022</i>	<i>2021</i>
Gross Deferred Tax Assets:		
Defined benefit plans	\$ 4,088	\$ 2,998
Investments	114	87
Tax depreciation less than book depreciation	1,107	1,014
Expenses deductible for tax purposes in a year different from the year accrued	640	731
Lease liability	3,806	4,538
Deferred compensation and benefits	40	—
Book amortization in excess of tax amortization	935	987
State taxes	171	124
Net operating loss carryforward	10,063	7,114
Other	316	349
Total deferred tax assets	<u>21,280</u>	<u>17,942</u>
Valuation allowance	<u>(17,380)</u>	<u>(13,507)</u>
Total deferred tax assets, net of valuation allowance	3,900	4,435
Gross Deferred Tax Liabilities:		
Right-of-use asset	(3,117)	(3,706)
Other	<u>(501)</u>	<u>(472)</u>
Total deferred tax liabilities	(3,618)	(4,178)
Net Deferred Tax Assets	<u>\$ 282</u>	<u>\$ 257</u>

The presentation of net deferred tax assets and liabilities for each jurisdiction are presented as noncurrent within the Company's Consolidated Balance Sheets. Deferred income tax balances reflect the effects of temporary differences between the carrying amounts of assets and liabilities and their tax bases and are stated at enacted tax rates expected to be in effect when the taxes are actually paid or recovered. The Company recognizes a valuation allowance for deferred tax assets when it is more-likely-than-not that these assets will not be realized. In making this determination, all positive and negative evidence is considered, including future reversals of existing taxable temporary differences, tax planning strategies, future taxable income and taxable income in prior carryback years. In 2022, the valuation allowance increased \$3,873, of which \$1,886 arose from deferred tax assets related to amounts recorded in accumulated other comprehensive loss that are fully reserved by a valuation allowance. At December 31, 2022, the Company had a federal net operating loss carryforward of \$47,395, of which \$17,528 expires in 2037 and \$29,867 does not have an expiration. The annual utilization of the portion of the federal net operating loss, which does not have an expiration, is limited to 80 percent of taxable income in tax years beginning after January 1, 2021. The Company has a state net operating loss of \$2,844, which will begin to expire in 2033.

Uncertain tax positions are evaluated and a liability is recognized for the tax benefit associated with uncertain positions only if it is more-likely-than-not that the positions will not be sustained upon examination by taxing authorities, based on the technical merits of the positions. The Company assesses its filing positions in all significant jurisdictions where it is required to file income tax returns for all open tax years. The Company's federal income tax return for December 31, 2014 and for tax years subsequent to December 31, 2016 remain subject to examination, and income tax returns in major state income tax jurisdictions where the Company operated remain subject to examination. The statute of limitations associated with the December 31, 2014 federal return was extended in 2020 due to the net operating loss carryback pursuant to the CARES Act. The Company has recorded a reserve for the tax benefit related to uncertain tax positions existing as of December 31, 2022 in other liabilities in the Consolidated Balance Sheets.

The table below sets forth a reconciliation of the beginning and ending amount of unrecognized tax benefit.

	<i>2022</i>	<i>2021</i>
Balance at January 1	\$ 66	\$ 2,641
Decrease related to statute of limitations expiring	—	(2,575)
Balance at December 31	<u>\$ 66</u>	<u>\$ 66</u>

The Company recorded interest income (expense) of \$(4) and \$455 for 2022 and 2021, respectively, and penalty expense of \$5 for 2022 and 2021, included in other income (loss), net in the Consolidated Statements of Operations. Accrued interest and penalty at December 31, 2022 and 2021 was \$36 and \$27, respectively, included in other liabilities in the Consolidated Balance Sheets. In 2021, the Company recorded a tax benefit of \$2,575 and \$455 of interest income due to the release of a federal uncertain tax reserve and related interest resulting from the statute of limitations lapsing in August 2021.

Note 5: Pension and Other Retirement Plans

Defined Benefit Plans. The Company sponsors the DallasNews Pension Plans (the “Pension Plans”), formerly the A. H. Belo Pension Plans, which provide benefits to approximately 1,350 current and former employees of the Company. DallasNews Pension Plan I provides benefits to certain current and former employees primarily employed with *The Dallas Morning News* or the DallasNews corporate offices. DallasNews Pension Plan II provides benefits to certain former employees of The Providence Journal Company. This obligation was retained by the Company upon the sale of the newspaper operations of *The Providence Journal*. No additional benefits are accruing under the DallasNews Pension Plans, as future benefits were frozen.

The Company is the sole sponsor of the Pension Plans and is required to meet certain pension funding requirements as established under the Employment Retirement Income Security Act (“ERISA”). Instability in global and domestic capital markets may result in low returns on the assets contributed to the Pension Plans. Additionally, low yields on corporate bonds may decrease the discount rate, resulting in a higher funding obligation. Although legislation was enacted into law in 2012, which provided limited funding relief, market conditions could materially increase the funding requirements associated with the Pension Plans, with an adverse effect on the Company’s liquidity and financial condition. The Company was not required to make contributions to the DallasNews Pension Plans in 2022 and 2021 under ERISA. On August 31, 2022, the Company made a board approved voluntary contribution of \$5,000 to the Pension Plans, reflected in long-term pension liabilities in the Consolidated Balance Sheet. The Company will continue to evaluate the feasibility of de-risking strategies based on the economic benefits to the Company.

Actuarial losses of \$(9,818) and \$(1,358) were recorded to other comprehensive income (loss) in 2022 and 2021, respectively, related to the Pension Plans; see Note 6 - Shareholders' Equity for information on amounts recorded to accumulated other comprehensive loss.

The table below sets forth summarized financial information about the DallasNews Pension Plans.

	2022	2021
Change in Projected Benefit Obligation		
Projected benefit obligation at beginning of year	\$ 219,364	\$ 233,640
Interest cost	5,311	4,697
Actuarial gain	(42,425)	(6,477)
Benefit payments	(12,706)	(12,496)
Projected benefit obligation at end of year	169,544	219,364
Change in Plan Assets		
Fair value of plan assets at beginning of year	205,089	215,120
Return on plan assets	(47,294)	2,465
Employer contributions	5,000	—
Benefit payments	(12,706)	(12,496)
Fair value of plan assets at end of year	150,089	205,089
Funded Status	\$ (19,455)	\$ (14,275)
Amounts Recorded on the Balance Sheet		
Long-term pension liabilities	\$ 19,455	\$ 14,275
Accumulated Benefit Obligation	\$ 169,544	\$ 219,364

Net Periodic Pension Expense (Benefit)

The projected benefit obligations of the DallasNews Pension Plans are estimated using the FTSE Pension Discount Curve, which is based upon a portfolio of high-quality corporate debt securities with maturities that correlate to the expected timing of estimated benefit payments to the Pension Plans’ participants. Future estimated benefit payments are discounted to their present value at the appropriate yield curve spot rate to determine the projected benefit obligation outstanding at each year end. The single equivalent discount rate as of December 31, 2022, was 4.9 percent and 2.5 percent for December 31, 2021. The significant gains related to changes in the projected benefit obligation for 2022 and 2021, were primarily due to the movement in the discount rate.

Interest expense included in net periodic pension benefit is based on the FTSE Pension Discount Curve established at the beginning of the fiscal year. The discount rate for fiscal year 2022 and 2021 interest cost was 2.5 percent and 2.1 percent, respectively.

The Company assumed a 2.5 percent and 5.5 percent long-term return on the Pension Plans’ assets in 2022 and 2021, respectively. This return is based upon historical returns of similar investment pools having asset allocations consistent with the expected allocations of the DallasNews Pension Plans. Investment strategies for the Pension Plans’ assets are based upon factors such as the effective duration of the actuarial liabilities and market risks.

The Company's estimates of net periodic pension expense or benefit are based on the expected return on plan assets, interest on the projected benefit obligations and the amortization of actuarial gains and losses that are deferred in accumulated other comprehensive loss. Participation in and accrual of new benefits to participants has been frozen since 2007 and, accordingly, on-going service costs are not a component of net periodic pension expense (benefit). For 2022, based on the re-allocation of the Pension Plans' assets, the Company assumed a lower rate of return on the assets resulting in net periodic pension expense.

The table below sets forth components of net periodic pension expense (benefit), which are included in other income (loss), net in the Consolidated Statements of Operations.

	<i>Years Ended December 31,</i>	
	<i>2022</i>	<i>2021</i>
Interest cost	\$ 5,311	\$ 4,697
Expected return on plans' assets	(4,949)	(10,299)
Amortization of actuarial loss	526	1,444
Net periodic pension expense (benefit)	\$ 888	\$ (4,158)

Plan Assets

The Company is responsible for directing the investment strategies of the DallasNews Pension Plans' assets. The investment strategies focus on asset class diversification, liquidity to meet benefit payments and an appropriate balance of long-term investment return and risks. In 2022, the long-term targeted allocation of the Pension Plans' assets invested in equity securities and fixed income securities was approximately 5 percent and 95 percent, respectively. In 2021 management and the board agreed that the Pension Plans' investment portfolio should be further de-risked to 95 percent liability hedging assets. These targets are determined based on the effective duration of the actuarial liabilities, the expected long-term rate of return on assets, and expected market risks. Investment risk is continuously monitored and Pension Plans' assets are rebalanced to target allocations to meet the Company's strategy and the Pension Plans' liquidity needs. At December 31, 2022, the Pension Plans' investments in equity securities and fixed income securities accounted for 4.4 percent and 95.6 percent of the total noncash holdings, respectively.

The table below sets forth the DallasNews Pension Plans' assets at fair value as of December 31, 2022 and 2021, with inputs used to develop fair value measurements.

Description	Fair Value Measurements Using							
	Total		Quoted Price in Active Markets for Identical Assets (Level I)		Significant Other Observable Inputs (Level II)		Significant Unobservable Inputs (Level III)	
	2022	2021	2022	2021	2022	2021	2022	2021
Cash and Money Market Funds	\$ 1,608	\$ 2,749	\$ 1,608	\$ 2,749	\$ —	\$ —	\$ —	\$ —
Equity Funds								
U.S. equity securities	3,666	6,492	—	—	3,666	6,492	—	—
International equity securities	2,856	3,317	—	—	2,856	3,317	—	—
Fixed Income Funds								
Domestic corporate and government debt securities	72,194	96,362	—	—	72,194	96,362	—	—
Domestic corporate debt securities	69,243	95,647	—	—	69,243	95,647	—	—
International corporate and government debt securities	522	522	—	—	522	522	—	—
Total	\$ 150,089	\$ 205,089	\$ 1,608	\$ 2,749	\$ 148,481	\$ 202,340	\$ —	\$ —

Inputs and valuation techniques used to measure the fair value of Pension Plans' assets vary according to the type of asset being valued. Cash and money market funds are designated as Level I. Remaining investments are in commingled funds and fair values are determined by the fund manager primarily based upon closing market quotes of the assets. Equity securities held through units in these funds are monitored as to issuer and industry. As of December 31, 2022, there were no significant concentrations of equity or debt securities in any single issuer or industry.

Other

The table below sets forth the Company's expected future pension benefit payments as of December 31, 2022.

Payment year	Expected Benefit Payments
2023	\$ 13,849
2024	13,817
2025	13,779
2026	13,615
2027	13,473
2028 - 2032	63,139

The Company currently does not expect to make contributions to the DallasNews Pension Plans in 2023 and no contributions are required to these plans in 2023 under ERISA.

Other defined benefit plans. DallasNews also sponsors other post-employment benefit (the "OPEB") plans, which provide health and life insurance benefits for certain retired employees. These plans were frozen subsequent to the separation from the Company's former parent company; therefore, no future benefits accrue and on-going service costs are not a component of net periodic benefit cost. The Company recorded a liability of \$982 and \$1,349 related to the OPEB plans as of December 31, 2022 and 2021, respectively. A net periodic benefit cost of \$22 and \$17 in 2022 and 2021, respectively, was recorded to other income (loss), net. The net periodic benefit cost primarily represents amortization of actuarial gains (losses) and prior service costs, offset by interest expense associated with the actuarial liability. Actuarial gains (losses) of \$322 and \$(20) were recorded to other comprehensive income (loss) in 2022 and 2021, respectively; see Note 6 - Shareholders' Equity.

Defined Contribution Plans. The DallasNews Savings Plan (the "Savings Plan"), a defined contribution 401(k) plan, covers substantially all employees of DallasNews. Participants may elect to contribute a portion of their pretax compensation as provided by the Savings Plan and the Internal Revenue Code. Employees can contribute up to 100 percent of their annual eligible compensation less required withholdings and deductions up to statutory limits. The Company provides an ongoing dollar-for-dollar match of eligible employee contributions, up to 1.5 percent of the employees' compensation. The Company recorded expense of \$739 and \$735 in 2022 and 2021, respectively, for matching contributions to the Savings Plan.

Note 6: Shareholders' Equity

Reverse Stock Split. The Company's board of directors approved a one-for-four reverse stock split of its issued, outstanding and treasury shares of common stock, par value \$0.01 per share, which became effective June 8, 2021. See Note 1 – Significant Accounting Policies and Recently Issued Accounting Standards for additional information.

Dividends. Quarterly dividends returned \$11,454 and \$3,425 to shareholders in 2022 and 2021, respectively. On December 1, 2022, the Company's board of directors declared a \$0.16 per share dividend to shareholders of record as of the close of business on February 10, 2023, paid on March 3, 2023.

Outstanding Shares. The Company had Series A and Series B common stock outstanding of 4,737,772 and 614,718, respectively, net of treasury shares at December 31, 2022. At December 31, 2021, the Company had Series A and Series B common stock outstanding of 4,737,580 and 614,910, respectively, net of treasury shares.

Accumulated Other Comprehensive Loss. Accumulated other comprehensive loss consists of actuarial gains and losses attributable to the DallasNews Pension Plans, gains and losses resulting from Pension Plans' amendments and other actuarial experience attributable to OPEB plans. The Company records amortization of the components of accumulated other comprehensive loss in other income (loss), net in its Consolidated Statements of Operations. Gains and losses are amortized over the weighted average remaining life expectancy of the OPEB plans and Pension Plans' participants.

The table below sets forth the changes in accumulated other comprehensive loss, net of tax, as presented in the Company's consolidated financial statements.

	<i>Years Ended December 31,</i>					
	<i>2022</i>			<i>2021</i>		
	Total	Defined benefit pension plans	Other post-employment benefit plans	Total	Defined benefit pension plans	Other post-employment benefit plans
Balance, beginning of period	\$ (32,406)	\$ (32,485)	\$ 79	\$ (32,468)	\$ (32,571)	\$ 103
Amortization	522	526	(4)	1,440	1,444	(4)
Actuarial gains (losses)	(9,496)	(9,818)	322	(1,378)	(1,358)	(20)
Balance, end of period	<u>\$ (41,380)</u>	<u>\$ (41,777)</u>	<u>\$ 397</u>	<u>\$ (32,406)</u>	<u>\$ (32,485)</u>	<u>\$ 79</u>

Note 7: Earnings Per Share

The table below sets forth the net loss available to common shareholders and weighted average shares used for calculating basic earnings per share ("EPS"). The Company's Series A and Series B common stock equally share in the distributed and undistributed earnings.

	<i>Years Ended December 31,</i>	
	<i>2022</i>	<i>2021</i>
Earnings (Numerator)		
Net loss available to common shareholders	\$ (9,786)	\$ (467)
Shares (Denominator)		
Weighted average common shares outstanding (basic)	5,352,490	5,352,490
Loss Per Share		
Basic	<u>\$ (1.83)</u>	<u>\$ (0.09)</u>

There were no options or RSUs outstanding as of December 31, 2022 and 2021, that would result in dilution of shares or the calculation of EPS under the two-class method as prescribed under ASC 260 – *Earnings Per Share*.

Note 8: Commitments and Contingencies

As of December 31, 2022, the Company had contractual obligations, in aggregate, of \$12,283 for the next five years and \$14,342 thereafter, for operating leases, primarily for office space and other distribution centers, some of which include escalating lease payments. See Note 3 – Leases for future lease payments by year.

In December 2016, the Dallas Morning News, Inc., a wholly-owned subsidiary of the Company, entered into a 16-year lease agreement for office space for the Company's new corporate headquarters. The Company recognizes rent expense on a straight-line basis. Per the amended lease agreement, rent payments began in November 2018.

Total lease expense for property and equipment was \$4,796 and \$5,018 in 2022 and 2021, respectively.

The Company funds the DallasNews Pension Plans to meet or exceed statutory requirements. The Company currently does not expect to make contributions to the DallasNews Pension Plans in 2023 and no contributions are required to these plans in 2023 under the applicable tax and labor laws governing pension plan funding; see Note 5 - Pension and Other Retirement Plans.

From time to time, the Company is involved in a variety of claims, lawsuits and other disputes arising in the ordinary course of business. Management routinely assesses the likelihood of adverse judgments or outcomes in these matters, as well as the ranges of probable losses to the extent losses are reasonably estimable. Accruals for contingencies are recorded when, in the judgment of management, adverse judgments or outcomes are probable and the financial impact, should an adverse outcome occur, is reasonably estimable. The determination of likely outcomes of litigation matters relates to factors that include, but are not limited to, past experience and other evidence, interpretation of relevant laws or regulations and the specifics and status of each matter. Predicting the outcome of claims and litigation and estimating related costs and financial exposure involves substantial uncertainties that could cause actual results to vary materially from estimates and accruals. In the opinion of management, liabilities, if any, arising from other currently existing claims against the Company would not have a material adverse effect on DallasNews' results of operations, liquidity or financial condition.

Note 9: Supplemental Cash Flow Data

The table below sets forth supplemental disclosures related to the Company's Consolidated Statements of Cash Flows.

	Years Ended December 31,	
	2022	2021
Income tax paid, net	\$ 619	\$ 666
Noncash investing and financing activities:		
Investments in property, plant and equipment payable	—	245
Dividends payable	856	856

Note 10: Disposal of Assets

In May 2019, the Company finalized a Purchase and Sale Agreement with Charter DMN Holdings, LP (the "Purchaser") for the sale of the real estate assets in downtown Dallas, Texas, previously used as the Company's headquarters for a sale price of \$28,000 and a pretax gain of \$25,908. The sale price consisted of \$4,597 cash received, after selling costs of approximately \$1,000, and a two year seller-financed promissory note of \$22,400 (the "Promissory Note"), included in current notes receivable in the December 31, 2021 Consolidated Balance Sheet.

Effective June 30, 2022, the Company and the Purchaser entered into an agreement extending the maturity date of the Promissory Note to July 29, 2022 (the "Third Modification Agreement"). The unpaid, original principal balance of the Promissory Note accrued interest at the rate of 6.5 percent.

On July 29, 2022, the Company was paid in full, receiving cash proceeds of \$22,516, including interest, due from the Purchaser under the Third Modification Agreement.

In 2022 and 2021, the Company recorded \$616 and \$1,008, respectively, of interest income related to the Promissory Note, included in other income (loss), net in the Consolidated Statements of Operations.

In 2021, the Company sold inactive IP addresses for \$1,349, included in other income (loss), net in the Consolidated Statements of Operations.

Note 11: Subsequent Events

The Company evaluates subsequent events at the date of the consolidated balance sheet as well as conditions that arise after the balance sheet date but before the consolidated financial statements are issued. To the extent any events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions.

On March 9, 2023, the Company's board of directors declared a \$0.16 per share dividend to shareholders of record as of the close of business on May 12, 2023, which is payable on June 2, 2023.
